2015 Tax Reporting Statement Instructions

Information to Help You Understand Your Tax Forms

Here are instructions and line item descriptions for the information reported to the IRS on tax forms 1099-DIV, 1099-MISC, 1099-INT, 1099-B, and 1099-OID. These are IRS instructions that we are required to provide to you.

RECIPIENT'S IDENTIFICATION NUMBER AND ACCOUNT NUMBER

Identification number—For your protection, this form may show only the last four digits of your Social Security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN). However, the issuer has reported your complete identification number to the IRS and, where applicable, to state and/or local governments.
Account number—Shows an account number the payer assigned to distinguish your account.

1099-DIV: DIVIDENDS AND DISTRIBUTIONS (OMB NO. 1545-0110)

1a Total Ordinary Dividends—Shows total ordinary dividends that are taxable. Include this amount on line 9a of Form 1040 or 1040A. Also, report it on Schedule B (1040A or 1040), if required.

1b Qualified Dividends—Shows the portion of the amount in line 1a that may be eligible for reduced capital gains rates. See Form 1040/1040A instructions for how to determine this amount. Report the eligible amount on line 9b, Form 1040 or 1040A.
The amount shown may be dividends a corporation paid directly to you as a participant (or beneficiary of a participant) in an employee stock ownership plan (ESOP). Report it as a dividend on your Form 1040/1040A but treat it as a plan distribution, not as investment income, for any other purpose.

2a Total Capital Gain Distributions—Shows total capital gain distributions from a regulated investment company or real estate investment trust. Report the amounts shown on line 2a on Schedule D (Form 1040), line 13. But, if no amount is shown on lines 2c–2d and your only capital gains and losses are capital gain distributions, you may be able to report the amounts shown on line 2a on line 13 of Form 1040 (line 10 of Form 1040A), rather than Schedule D. See the Form 1040/1040A instructions.

2b Unrecap. Sec. 1250 Gain—Shows the portion of the amount in line 2a that is unrecaptured Section 1250 gain from certain depreciable real property. Report the amount on the **Unrecaptured Section 1250 Gain Worksheet—Line 19** in the Schedule D instructions (Form 1040).

2c Section 1202 Gain—Shows the portion of the amount in line 2a that is Section 1202 gain from certain small business stock that may be subject to an exclusion. See the Schedule D (Form 1040) instructions.

2d Collectibles (28%) Gain—Shows 28% rate gain from sales or exchanges of collectibles. If required, use this amount when completing the **28% Rate Gain Worksheet—Line 18** in the instructions for Schedule D (Form 1040).

3 Nondividend Distributions—Shows the part of the distribution that is nontaxable because it is a return of your cost (or other basis). You must reduce your cost (or other basis) by this amount for figuring gain or loss when you sell your stock. But if you get back all your cost (or other basis), report future distributions as capital gains. See **Pub. 550**, Investment Income and Expenses.

4 **Federal Income Tax Withheld**—Shows backup withholding. A payer must backup withhold on certain payments if you did not give your taxpayer identification number to the payer. See **Form W-9**, Request for Taxpayer Identification Number and Certification, for information on backup withholding. **Include this amount on your income tax return as tax withheld.**

5 Investment Expenses—Shows your share of expenses of a nonpublicly offered regulated investment company, generally a nonpublicly offered mutual fund. If you file Form 1040, you may deduct these expenses on the "Other expenses" line of Schedule A (Form 1040) subject to the 2% limit. This amount is included in line 1a.

6 Foreign Tax Paid—Shows the foreign tax you may be able to claim as a deduction or a credit on Form 1040. See the Form 1040 instructions.

7 Foreign Country or U.S. Possession—This line should be left blank if a regulated investment company reported the foreign tax shown in line 6. Generally completed as various.

8 and 9 Liquidation Distributions—Shows cash and noncash liquidation distributions.

10 Exempt-Interest Dividends—Shows exempt-interest dividends from a mutual fund or other regulated investment company paid to you during the calendar year. Include this amount on line 8b of Form 1040 or 1040A as tax-exempt interest. This amount may be subject to backup withholding. See line 4.

11 Specified Private Activity Bond Interest Dividends—Shows exempt-interest dividends subject to the alternative minimum tax. This amount is included in line 10. See the Instructions for Form 6251.

12–14 State income tax withheld reporting lines.

Nominees: Please read the note at the end of all the instructions.

1099-INT: INTEREST INCOME (OMB NO. 1545-0112)

The information provided may be different for covered and noncovered securities. For a description of covered securities, see the Instructions for Form 8949. For a taxable covered security acquired at a premium, unless you notified the payer in writing in accordance with Regulations Section 1.6045-1(n)(5) that you did not want to amortize the premium under Section 171, or for a tax-exempt covered security acquired at a premium, your payer may report either (1) a net amount of interest that reflects the offset of the amount of interest paid to you by the amount of premium amortization allocable to the payment(s) or (2) a gross amount for both the amount paid to you and the premium amortization allocable to the payment(s). If you did notify your payer that you did not want to amortize the premium on a taxable covered security, then your payer will report only the gross amount of interest paid to you. For a noncovered security acquired at a premium, your payer is required to report only the gross amount of interest paid to you.

1 Interest Income—Shows taxable interest paid to you during the calendar year by the payer. This does not include interest shown in line 3. May also show the total amount of the credits from clean renewable energy bonds, new clean renewable energy bonds, qualified energy conservation bonds, qualified zone academy bonds, qualified school construction bonds, and Build America Bonds that must be included in your interest income. These amounts were treated as paid to you during 2015 on the credit allowance dates (March 15, June 15, September 15, and December 15). For more information, see **Form 8912**, Credit to Holders of Tax Credit Bonds. See the instructions above for a taxable covered security acquired at a premium.

2 Early Withdrawal Penalty—Shows interest or principal forfeited because of early withdrawal of time savings. You may deduct this amount to figure your adjusted gross income on your income tax return. See the instructions for Form 1040 to see where to take the deduction.

Get an eFax number and send/receive faxes without a machine from your email

To the right are pages that people have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-866-330-1239 (your boss will never notice... maybe), or 1-213-284-2943 (long distance to Los Angeles, California) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the first page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will work.

Privacy Policy: We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet. Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device
- Connect Fax machine directly to the Vonage device, bypassing any home wiring
- If using an All In One device, temporarily disconnect device from PC

The mission of Aging and Long Term Care of Eastern Washington (ALTCEW) is to promote well-being, independence, dignity and choice for all older persons and for individuals needing long term care in Ferry, Stevens, Pend Oreille, Spokane, and Whitman counties. This mission will be achieved by:

Collaborating with others to create coordinated and comprehensive service delivery systems; and

Providing planning, program development, and administration, public information, advocacy, and direct service; and

Emphasizing that the above functions and services are targeted on those with greatest social, economic, and health needs and on culturally diverse individuals; and

Promoting a long term care system through integrating acute and chronic care services, and

Creating innovative outreach and information mechanisms to reach isolated vulnerable individuals.

ALTCEW is one of 700 area agencies on aging located across the nation. They are part of what is known as the "aging network."

Programs and Services administered by or funded in-part by Aging & Long Term Care of Eastern Washington are noted in red.

____ 11. An example of a single-gene trait is
- a. a widow's peak in humans.
- b. the weight of human infants at birth.
- c. height in humans.
- d. beak size in the Galápagos finches

____ 12. The type of genetic drift that follows the colonization of a new habitat by a small group of individuals is called
- a. the Hardy-Weinberg principle.
- b. directional selection.
- c. the founder effect.
- d. stabilizing selection.

D 13. On the Galápagos Islands, Charles Darwin observed
- a. completely unrelated species on each of the islands.
- b. species completely unrelated to those found in South America.
- c. species exactly like those found in South America.
- d. somewhat similar species with traits that suited their particular environment

A 14. The hypothesis that species change over time by natural selection was proposed by
- a. Darwin.
- b. Malthus.
- c. Lamarck
- d. Hutton

____ 15. James Hutton's and Charles Lyell's work suggested that
- a. all fossils were formed in the last one thousand years.
- b. Earth is several thousand years old.
- c. Earth is many millions of years old.
- d. all rocks on Earth contain fossils

____ 16. Genetic drift tends to occur in populations that
- a. are small
- b. are very large
- c. are formed from new species
- d. have unchanging allele frequencies.

D 17. The situation in which allele frequencies of a population remain constant is called
- a. natural selection
- b. genetic drift
- c. evolution
- d. genetic equilibrium.

____ 18. Darwin viewed the fossil record as
- a. evidence that traits are acquired through use or disuse.
- b. a record of evolution.
- c. evidence that Earth was thousands of years old.
- d. interesting but unrelated to the evolution of modern species.

____ 19. According to Darwin's theory of natural selection, the individuals that tend to survive are those that have
- a. characteristics that plant and animal breeders value
- b. the greatest number of offspring.
- c. characteristics their parents acquired by use and disuse.
- d. variations best suited to the environment.

A 20. Bonus *** Which is the first step that occurred in the speciation of the Galápagos finches?
- a. arrival of the founding population
- b. ecological competition
- c. establishment of genetic equilibrium
- d. behavioral isolation

Fly Fishing

HOME ABOUT JOAN WULFF OUR STAFF CONTACT

The School Setting

The Wulff School of Fly Fishing is located in the Catskills, the birthplace of dry fly fishing in America, on its best known river, the Beaverkill. The School's 100 acres in the upper Beaverkill Valley is a beautiful setting of forest, meadow, and ponds. Our school building was especially designed to meet our teaching requirements. An adjoining private stretch of the Beaverkill is used to teach wading, streamcraft, and trout playing.

Students with extra time, may enjoy fishing the Delaware's main stem, plus the East and West branches, as well as the trout-rich no-kill stretches of the Beaverkill and Willowemoc.

Click here for **Frequently Asked Questions, Accommodations & Travel Directions**

Courses Offered

TROUT FISHING

This is our all-encompassing trout course, good for beginners and experienced trout fishermen alike. In addition to the theory and practice of casting* on ponds and in the river, you'll learn about stream entomology, fishing knots, reading water, tackle know-how, fly selection, approach and presentation, wading, playing, landing and releasing fish. Joan's Fly Casting Techniques is provided as a textbook—including use of videotape on one of the six sessions.

FLY CASTING

This course is the ideal follow-up to the Trout Course. The course is designed to improve any angler's casting skill on fresh or salt water because we can instruct individually and move at each student's pace. The course includes tackle know-how, casting patterns for stream coverage, accuracy, shooting line, and — depending on student's interest and ability — handling heavy lines, curves and mends, spey and quick casts, kayak or canoe casting and other advanced techniques. Joan's casting DVD and her book, Fly-Casting Techniques, are the texts.

INSTRUCTORS COURSE

2017 Date: May 1 2,3. This class will be conducted by Joan, Sheila and staff. Experience with the Wulff School casting method through the Casting School is recommended.

PRIVATE SCHOOLS

Private schools for groups are available. Please inquire.

FAX TEST

WHY DOESN'T MY FAX MACHINE LOVE ME? I TAKE GOOD CARE OF IT. I GIVE IT TONER AND HAVE IT CONNECTED TO A RELIABLE ANALOG LINE. I EVEN UPGRADED IT TO DO NETWORK PRINTING. I ALWAYS GET THE FAXES OFF OF ITS TRAY AS SOON AS THEY COME IN AND I GIVE IT REGULAR MAINTENANCE. I LOVE MY FAX MACHINE SO SOMEONE TELL ME WHY OH WHY DOESN'T IT LOVE ME.

Table 2 Configuration Command Summary *(Continued)*

	Command	Explanation
Step 8	Configure the media gateway.	
	(config)#**interface** *<interface>*	Specifies an interface used for SIP and RTP traffic. Specify the interface in the format *<interface type /slot/port | slot/port.subinterface id | interface id | interface id.subinterface id>*. For example, for an Ethernet subinterface, use **eth 0/1.1**; for a PPP interface, use **ppp 1**; for an ATM subinterface, use **atm 1.1**.
	(config)#**ip address** *<ip address>* *<subnet mask>*	Specifies the IP address for the outbound interface for RTP traffic. IP addresses should be expressed in dotted decimal notation (for example, **10.10.10.1**). Subnet masks can be expressed in decimal dotted notation (for example, **255.255.255.0**) or as a prefix length (for example, **/24**). This command is needed only if the interface does not already have an IP address assigned.
	(config-*<interface>*)#**media-gateway ip loopback** *<interface id>* [**primary** | **secondary**	Associates the IP address source to use for RTP traffic. Loopback interface identifier range is 1 to 1024. The **primary** keyword indicates the

Subject Density Output C[illegible]

155

BACK

At present, a request for density output cards in a sensitometric computations run yields density cards corresponding to densitometer densities. If the test code used involves E.N.D. conversions, the density output cards [illegible] through a separate conversion program to correspond [illegible] cards corresponding to individual strips are punched, wh[illegible] desired.

I prop[illegible] density card output is requested, plotted densities are punched out. In the normal case, these would simply be the average densities. If the test code calls for E.N.D. conversion, it would be the E.N.D. densities that are punched out. If the test breaks down, e.g. because of range check failure, we would get cards punched out for individual strips since individuals are plotted in that case.

I would appreciate your comments on this proposal by January 2, 1971.

Windows® Fax and Scan

[illegible]

[illegible]

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.
3. Follow the instructions in the wizard to connect to a fax modem, and then, when you're finished, create your fax.

To use a fax server instead of a modem, contact your system administrator. For more tips on faxing, click the Help button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture in the scanner.
2. [illegible] to scan.
3. On the toolbar, click **New Scan**.
4. Review the scanner settings [illegible] scan.

failure to provide Bell with up to date billing information and payment information.

In order to offset its processing costs and to the extent permitted by applicable law, Bell may bill you for administrative charges as set by Bell from time to time for administrative or account activities, including collection efforts due to non-payment or to having a balance over your credit limit; returned or rejected payments; changes in personal identifier information; or suspension, disconnection or reactivation/reconnection of the Bell Services. All administrative fees charged to you are part of the Charges you owe to Bell under this Agreement.

Customers subscribing solely to Bell's residential local telephone service who purchase any additional product(s) or service(s) from Bell and/or its affiliated companies shall: (a) no longer be eligible for the then applicable CRTC approved maximum price for residential stand-alone primary exchange local telephone service; (b) be subject to any future price increases for such residential local telephone service; and (c) be required to pay the then applicable downgrade fees (currently $35, subject to change) and any applicable administrative charges and/or early termination fees, to the extent permitted by applicable law, if they cancel all of the additional product(s) or service(s) in order to be eligible for the then applicable CRTC approved maximum price for residential stand-alone primary exchange local telephone service.

3. Amendments/Changes to the Agreement. To the extent not prohibited by applicable law, Bell may change the Bell Services and/or this Agreement, including any applicable Charges, fees (including one time fees) and/or any feature or other aspect of any of the Bell Services. To the extent required by applicable law, Bell will give you not less than 30 days notice in advance of the effective date of any change or amendment to the Agreement or of any material change to the Bell Services by posting a notice of such change on www.bell.ca, by mailing a notice to you, by sending a notice via Short Information Message or other message on your monthly invoice, by sending you notice via email to the email address provided by you to Bell (in which case it is your responsibility to ensure that such email address remains current at all times) or by using any other notice method amendment or change applies in accordance with Section 4 upon the payment of all outstanding Charges or any other fees that may apply, except where such Charges or fees are prohibited by applicable law, in which case such cancellation shall be without cost, penalty or cancellation indemnity. If you continue to use the affected Bell Services after a change comes into effect, then, to the extent not prohibited by applicable law, you expressly agree that: (a) you will be deemed to have accepted the change, with no additional written agreement or express acknowledgement required; (b) specifically, you waive all statutory requirements for notice and express acceptance of such change except for those provided in this section; and (c) you will continue to be responsible for the payment of all Bell Services.

4. Cancellation of Bell Services by Customer. To cancel a service, you may contact Bell at Bell Client Care (see Section 18). Cancellation takes effect 30 days after the date you contact Bell. You shall be charged and you shall pay the applicable Charges for that 30 day cancellation period.

5. Termination of Bell Services by Bell. Bell may, without liability, stop providing you with any or all of the Bell Services and/or terminate this Agreement for any reason upon a minimum of 30 days prior written notice to you, or such longer period as may be required by applicable law. If you breach any part of this Agreement, Bell may, to the extent permitted by applicable law and without liability: (a) enter your premises and take immediate possession of all Bell Equipment provided in connection with the Bell Services, or require you to promptly return it in proper working order and in good condition; (b) accelerate and bill all Charges and other amounts under this Agreement as due and owing as of the termination date; and (c) terminate all Bell Services and this Agreement by written notice and specify a final payment date for all amounts that you owe not earlier than 10 days (or any other date permitted by law) from the date of the notice.

6. Suspension of Bell Services. Upon reasonable notice to you, Bell may suspend any Bell Service for a breach of this Agreement. To the extent permitted by applicable law, suspension does not change

This is a test

NSF have been exchanged, T.30 has been jettisoned and the terminals are free to use any proprietary protocol modifications they can both support.

Only the first three bytes of the NSF data string are generally specified. They comprise a country code and a manufacturer's code. The country code is set by ITU but the manufacturer's code is set by the country of origin. It is necessary to cross check the manufacturer's code against the denoted country code in order to decipher its meaning. Everything else in an NSF data string is proprietary to the company that creates it and few choose to share this information. A notable exception was the Adobe NSF string for PostScript fax. This was an attempt to get around the traditionally poor quality of faxed page images by sending a PostScript rendition of the pages rather than optically encoded lines. Adobe published this in hopes that the manufacturers would take it up and make it a widely used standard for sending clear clean fax pages. To my knowledge, only NEC actually adopted their idea but it worked splendidly

So, given the necessarily proprietary knowledge needed to respond to NSF and the universal ability to ignore it and continue with a DIS/DCS controlled call, what's the problem? The problem is something called demod/remod. Virtually all the high capacity based phone networks use some type of translation device to change the T.30 messages of a fax into an intermediate protocol (demodulation) so that they can achieve their transmission performance advantages over the standard PSTN once this protocol is changed back into T.30 (remodulation). This has become even more profound with the advent of Voice over IP (VoIP) wherein the switched circuit PSTN is replaced by the standard packet Internet which requires a gateway of some sort to convert signals between them. Of late the intermediate protocol of choice has become T.38 transferred by UDPTL packets. As long as the gateways that have to perform this transcoding have a T.30 fax call to work with all well and good. But what happens when the originating device communicating through a pair of these gateways discovers an NSF message from an answerer that it recognizes and responds to with an NSS and a blast of proprietary page code? The gateways simply throw up their hands and go out for a beer.

A VoIP gateway becomes by nature of its operation a fax standard. It has to field a T.30 call as though it were either answering the call (connected to the originating terminal) or originating the call (connected to the answering terminal). In point of fact, a pair of gateways must sustain two simultaneous fax calls between themselves and the two fax terminals while transferring the T.30 [illegible]

OS X Yosemite: Send a fax

You can fax files directly from your Mac to any fax machine or computer that's set up to receive faxes. If your Mac has a modem connected to a phone line, it's automatically configured to send faxes.

Note: The following provides instructions for printing using the standard features in OS X and may not match your setup. If these instructions differ from the user interface you're seeing, refer to the documentation that came with the app you're using.

1. Open the document you want to fax, then choose File > Print.
2. Choose Fax PDF from the PDF pop-up menu.
3. Choose your fax machine from the Printer pop-up menu.
4. Enter the fax number by doing one of the following:
   - Type the fax number in the To field.
   - If you see a Contacts button to the right of the To field, click it to select a number.
   - To paste a number into the To field when the Edit > Paste command isn't available, hold down the Control key as you click in the To field, then choose Paste from the menu that appears.
5. If your phone system requires you to dial a prefix for an outside line, type it in the Dialing Prefix field.
6. If you want to include a cover page, select "Use cover page," then enter a subject and message.
7. To change your options, use the print options pop-up menu (the pop-up menu within the separator bar).

   For example, to control how your modem behaves when faxing, choose Fax Modem. You can choose whether to dial with dial tones or pulse tones, whether to listen to the modem as it dials, and whether to wait for a steady dial tone before dialing.
8. Click Fax.

The fax is sent as soon as your modem is available. For example, if you're using your modem to connect to the internet, the fax is sent after you disconnect from your ISP.

The top of every page has a header that contains the date and time the fax was sent, a page number, and the fax number of the sender (from Printers & Scanners preferences).

If you include a cover page, its heading contains the fax's recipient (from the To field in the Print dialog), the fax's sender (the name of the logged-in user), the date and time the fax was sent, the subject line (from the Subject field in the Print dialog), and the number of pages in the fax, not including the cover page. The body of the cover page is from the Message field in the Print dialog.

CNN extorts amateur satirist who made video tweeted by Trump: if you make fun of us again we will harm you archive.is/o7izm#selectio...

> After posting his apology, "HanA**holeSolo" called CNN's KFile and confirmed his identity. In the interview, "HanA**holeSolo" sounded nervous about his identity being revealed and asked to not be named out of fear for his personal safety and for the public embarrassment it would bring to him and his family.
>
> CNN is not publishing "HanA**holeSolo's" name because he is a private citizen who has issued an extensive statement of apology, showed his remorse by saying he has taken down all his offending posts, and because he said he is not going to repeat this ugly behavior on social media again. In addition, he said his statement could serve as an example to others not to do the same.
>
> CNN reserves the right to publish his identity should any of that change.

Inflation in One Page

by Henry Hazlitt

1. Inflation is an increase in the quantity of money and credit. Its chief consequence is soaring prices. Therefore inflation—if we misuse the term to mean the rising prices themselves—is caused solely by printing more money. For this the government's monetary policies are entirely responsible.

2. The most frequent reason for printing more money is the existence of an unbalanced budget. Unbalanced budgets are caused by extravagant expenditures which the government is unwilling or unable to pay for by raising corresponding tax revenues. The excessive expenditures are mainly the result of government efforts to redistribute wealth and income—in short, to force the productive to support the unproductive. This erodes the working incentives of both the productive and the unproductive.

3. The causes of inflation are not, as so often said, "multiple and complex," but simply the result of printing too much money. There is no such thing as "cost-push" inflation. If, without an increase in the stock of money, wages or other costs are forced up, and producers try to pass these costs along by raising their selling prices, most of them will merely sell fewer goods. The result will be reduced output and loss of jobs. Higher costs can only be passed along in higher selling prices when consumers have more money to pay the higher prices.

4. Price controls cannot stop or slow down inflation. They always do harm. Price controls simply squeeze or wipe out profit margins, disrupt production, and lead to bottlenecks and shortages. All government price and wage control, or even "monitoring," is merely an attempt by the politicians to shift the blame for inflation on to producers and sellers instead of their own monetary policies.

5. Prolonged inflation never "stimulates" the economy. On the contrary, it unbalances, disrupts, and misdirects production and employment. Unemployment is mainly caused by excessive wage rates in some industries, brought about either by extortionate union demands, by minimum-wage laws (which keep teenagers and the unskilled out of jobs), or by prolonged and overgenerous unemployment insurance.

6. To avoid irreparable damage, the budget must be balanced at the earliest possible moment, and not in some sweet by and by. Balance must be brought about by slashing reckless spending, and not by increasing the tax burden that is already undermining incentives and production. ☐

Military Family Leave Policy

By Teressa Rose Ezell eHow Contributor

Share

The Family Medical and Leave Act (FMLA) gives an employee the right to take an extended leave in order to recover from a serious illness care for a seriously ill family member or bond with a newborn In 2008 and 2009, additions to the FMLA expanded the leave benefits to include situations frequently encountered by military families These new provisions allow for a 12 week exigency leave and a 26 week military caregiver leave Have a question? How to Fill Out the Family Medical Leave Act Form

The FMLA Military Leave Policy

Exigency Leave

The exigency leave provides for up to 12 weeks of paid leave to allow an employee to take care of issues that are directly related to a close family member s military duty The 12 weeks may be taken consecutively or may be divided but they must fall within the 12 month period beginning with the first day of leave No more than 12 weeks of such leave are permitted within any 12 month period.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

interpage INTERPAGE™ NETWORK SERVICES INC.

Tired of carrying around a pager?

Receive numeric pages on any cell phone!

Or, would to keep your existing pager and add new features such as filtering, forwarding, and scheduling?

Interpage DirectPage service can replace or enhance your existing pager service, by sending received numberic, alpha and voice pages/messages to one or more cell phones, pagers, e-mail addresses, fax recipients or voice destinations.

- Cellphones
- E-Mail
- Numeric Pagers
- Fax
- Alpha Pagers
- Voice Notification

Most DirectPage accounts can schedule when and where received messages are sent, and can filter from whom pages will be accepted from to avoid false alerts or pages from unauthorized callers

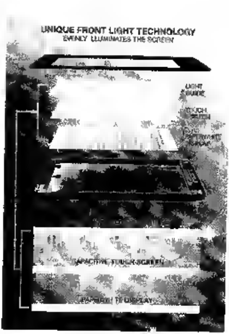
Read in Bright Sunlight with No Glare

Kindle Paperwhite has a matte screen that reflects light like ordinary paper so you can read as easily in bright sunlight as in your living room with no glare

Read at Night

With Kindle Paperwhite, reading in bed just got better. The patented built-in light illuminates the screen, not the entire room, so you won't disturb your partner when you can't put your book down at night

Patented Built-in Light



Patented built-in light

Designed for Reading

Unlike a backlit tablet display, Kindle Paperwhite guides light towards the surface c ink display from above so that the light never shines directly towards your eyes a you to read comfortably without eye strain. The built-in light illuminates the scree evenly than a book light or lighted cover

Perfectly Balanced Whiteness

We worked on Kindle Paperwhite for over two years to perfect the uniformity of it in light, flattening out a fiber optic cable into a sheet, and nanoimprinting to ensur perfectly even distribution of light. Our design uses nanoscale optical diffractive p to enable light control over the direction of the light. Enjoy reading with exceptio lighting uniformity and evenly balanced whiteness across the entire display. See h screen looks in different lighting conditions.

Adjustable Brightness

Your eyes adapt to the amount of light around you, so you'll prefer dimmer light reading in a dark setting and brighter light when reading in well-lit surroundings adjust the brightness of Kindle Paperwhite across a wide spectrum – from low ligh brightness – so you can read comfortably in any setting.

Power Efficient

Because our patented technology enables fine-grain control over where the light i diffused, Kindle Paperwhite uses low-power LEDs, requiring very little power to ev illuminate the entire screen

Hello World!

Here is my test PDF document.

Washington, D.C.
October 3, 1863

By the President of the United States of America

A Proclamation

The year that is drawing towards its close, has been filled with the blessings of fruitful fields and healthful skies. To these bounties, which are so constantly enjoyed that we are prone to forget the source from which they come, others have been added, which are of so extraordinary a nature, that they cannot fail to penetrate and soften even the heart which is habitually insensible to the ever watchful providence of Almighty God. In the midst of a civil war of unequaled magnitude and severity, which has sometimes seemed to foreign States to invite and to provoke their aggression

[illegible] your first choice dates and/or trailheads [illegible] which you [illegible] for trailheads and trip planning information [illegible] www.nps.gov/yose/planyourvisit/backpacking.htm.

Entry Date: Please list the entry date of your trip. We accept reservations up to 24 weeks (168 days) in advance. To calculate the date to make a reservation, please visit www.nps.gov/yose/planyourvisit/wildpermitdates.htm. Any choice made in advance will not be considered. If your second and/or third choice is more than 24 weeks in advance, you will have to [illegible] obtaining your first choice.

Entry Trailhead: Please select your entry trailhead from the drop down menu. To view a map of trailheads, please visit www.nps.gov/yose/planyourvisit/trailheads.htm. Note: entries with [illegible] in front of them are not trailheads, just group names.

Exit Date: Please list the last planned day of your trip. You may change your exit date when you pick up your permit without penalty. If you plan on exiting outside of Yosemite, list the date you plan to finish your trip, not the date you are leaving Yosemite.

Exit Trailhead: Please list the trailhead you plan to exit on. If you plan on exiting outside of Yosemite, the most convenient trailhead outside Yosemite is listed at the bottom of the drop down menu. Unfortunately, we are not able to list every trailhead in the Sierra. If your exit trailhead is not listed, please either type in the trailhead name or select "Not Listed". Quotas are not based on exit trailheads, so you may change your exit trailhead when you pick up your permit.

First Night's Camp Location: So we may verify that your route matches your trailhead selection, list your anticipated first night's camp location in Wilderness. For example, the nearby lake, stream, trail junction or other feature you plan to camp near. The backpacker's campgrounds at Tuolumne Meadows, Hetch Hetchy, and Yosemite Valley are not considered as [illegible] the wilderness. [illegible] need to give a precise location, but please try to be as clear as possible. You are not necessarily required to camp at the location listed as your first night camp location.

Number in Party: Maximum group size is 15, however not all trailhead quotas will allow for a group this large. For more information about large groups please visit www.nps.gov/yose/planyourvisit/largegroups.htm

Minimum Number of People Acceptable: If you are willing to accept a smaller group size if space isn't available for your preferred group size, please indicate that in the minimum number of people field.

Half Dome Permits: Half Dome permits for backpackers are limited. Check the Yes box if you wish to request Half Dome Cables permits with your wilderness permit. Otherwise, select the No box. If no box is selected for Half Dome permits, no Half Dome cable permits will be reserved for you. If you select yes for Half Dome Permits and do not complete the "Number of Half Dome Permits" field, we will request your permits for your full group size. If you do not select an option, or if Half Dome Cable permits are not available for your trip, [illegible] process your reservation. These permits CANNOT be used for day hikes.

Step 2: Submit your application form.
You can mail or fax your completed application form to the address or fax number provided on the form. Applications are accepted no earlier than 24 weeks (168 days) in advance of your trip. You may fax your request beginning at 5 pm Pacific time a day prior to the first date to apply. If you fax your request by 7:30 am on the first day to apply, your request will be included in the daily random lottery. For weekend request dates, you can also begin faxing at 5 pm on Friday. [illegible] the first day you can apply [illegible] you can fax your reservation any time after 5 pm that day. If your request is less than 2 weeks in advance please make a reservation via the phone. Submit only one application per group. Duplicate applications will [illegible] non-refundable processing fee for both reservations.

Step 3: Response
You will receive an email regarding the status of your application within one to two business days [illegible] within 2 weeks [illegible] email [illegible] provided. Please do not call prior to this time to inquire about the status of your application.

Step 4: Pick up your permit.
Your confirmation is not your permit. You must pick up your permit at one of the five Wilderness Centers located within Yosemite before you begin your hike. You, or another member of your hiking group, must pick up the wilderness permit at any permit station during business hours the day of, or the day before, your hike. Reserved permits are held until 10:00am on the day of your trip. If you will arrive later than 10 am on the day of your trip, please call us to hold your permit for a late arrival: 209/372-0308 [illegible]. If you do not call or pick up your permit by 10:00am, your permit reservation will be canceled. [illegible] permit station during business hours. (For locations and hours, please visit www.nps.gov/yose/[illegible])

Reservation changes: If space is available within the same season, you can request a change to your existing reservation [illegible] for an additional [illegible]. Changes must be made at least 2 days before your scheduled entry date. If space is available, you may increase your group size [illegible] reservation fee will apply). If you have questions regarding your reservation, or would like to make changes to an existing reservation, please do so by calling 209/372-0740. We are unable to correspond by email or fax.

Mail all required documentation to the address listed on the front side of this application. Be sure to make a copy to retain for your records.

Qualifications Effective August 2, 2010

Offer is valid beginning April 21, 2010 until funds are depleted.

You are only eligible for a rebate if you:

- ✓ Are a resident of Pennsylvania in a single-family home
- ✓ Purchased qualifying equipment within the program period, starting April 21, 2010 (purchases before this date do not qualify)
- ✓ Can provide required documents per instructions on front page of this application

Rebates are limited to one product per category per address.

Contractors or other third parties are not eligible to receive rebates.

Your installation of qualifying equipment is only eligible for a rebate if it:

- ✓ Was installed by a qualified contractor (see the program web site at: www.paheatingrebates.com for details)
- ✓ Was installed prior to submittal of this application at the address listed on the application
- ✓ Meets program energy efficiency criteria (see table portion)
- ✓ Was purchased within Pennsylvania
- ✓ Replaces operable equipment in existing single-family buildings (new construction is not eligible)

Complete applications must:

- ✓ Have a corresponding confirmed rebate reservation address
- ✓ Be postmarked no later than 30 calendar days after the rebate reservation date
- ✓ Be limited to one rebate of each qualified product category per customer
- ✓ Include proof of purchase receipts, work orders or other documentation consisting of: 1) brand and model or item number 2) professional contractor's name and registration reference number 3) phone number and 4) installation address

Purchases made on or after August 2, 2010 are subject to the rebate amounts as indicated on this rebate application. Purchases made on or after April 21, 2010 through August 1, 2010 are subject to original rebate amounts.

The rebate processor and the Pennsylvania Department of Environmental Protection disclaim any and all liability, loss or damage related to:

1) Program participation, including use or installation of the measure,
2) Loss or delay of rebate check in the mail
3) Any taxes that may be imposed as a result of program participation.

Windows® Fax and Scan

[illegible] and fax your documents

[illegible]

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.
3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.
2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.
3. On the toolbar, click **New Scan**.
4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Hey you, there on the other end of this connection. You, the person reading this. Yes, You, The one on the receiving end.

I've gotta be honest here. I've been thinking, and I just...

… I want you to have a really really nice day, alright? Just, just go and enjoy the hell out of it.

Think you can do that for me?

Thanks.

"Antigonish"

As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh, how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh, how I wish he'd go away

Zombie Emergency Procedure

In case of Zombie Apocalypse:

95% of all known zombies can be stopped by decapitation or destroying the brain. Aim your desperate, improvised weapons at the head and neck

DO NOT SPLIT UP!

Someone WILL get killed, turn into a zombie and the next person to see them will go, Oh, it's my friend. I'll just turn my back and OH GOD WHY IS HE EATING MY BRAIN?!

DO NOT USE FIRE

The only thing worse than undead hordes trying to eat your brain is undead hordes trying to eat your brain WHILE ON FIRE

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

Print Quality Settings

The Print-Quality mode and Color Corrections directly control the quality of your prints. You can change these settings in the print driver. Select the setting that is best for your print job.

Print-Quality Mode

- **Standard** is a high-speed, general-purpose mode for crisp, bright, color prints. Recommended for most office use and quick prints.
- **Enhanced** is the general-purpose mode for crisp, bright color prints. Balances speed with quality.
- **High Resolution** is a high-quality mode for fine lines and detail. Recommended for vibrant, saturated color prints. Balances quality over speed.
- **Toner Saver** reduces the amount of toner used for print jobs and is useful for draft quality output. Print quality is slightly lower than Standard.

[illegible]

Color corrections are available on the Image Options tab.

The Preview window is on the right side of the Image Options tab. It displays the effects of the color corrections when the Preview check box is selected. Selecting and deselecting **Preview** allows you to compare the corrected image to the uncorrected.

Use the Color Correction tab to adjust the color characteristics of your print job.

- **Xerox Black and White Conversion** converts the colors to grayscale producing a black and white print job. This setting is useful for creating black and white masters for photocopying or faxing.
- **Color Correction** provides options to match the printer colors as closely as possible to colors on other devices, such as your computer screen or a printing press. For example
  - **Automatic** applies the best color correction to each graphic element of the document: text, artwork, and photographs.
  - **Simulate LCD Display** approximates the print job color to the colors on a LCD computer monitor
  - **sRGB Display** approximates the print job color to an RGB (red, green, blue) display
  - **None** removes all color correction. This is the and choice when working with color specified within your application or operating system.
- **Xerox Automatic Color** applies the best color correction to each graphic element of the document: text, artwork, and photographs.
- **Custom Automatic Color** provides more options for customizing colors in your print job. Use one selection to adjust the color of the text and graphics. Use the other selection to adjust the color correction applied to images. Each element can be controlled by a wide range of color controls to simulate the outputs of different color devices.

Use the Color By Words tab to adjust colors with descriptive sentences built from three phrases:

- What color to change?
- How much change?
- What type of change

Select a phrase from each of the drop-down lists to build a sentence that describes the color adjustment you desire. You may build more than one sentence to be applied to the print job, affecting one color or an entire range of colors.

Use the Color Adjustments tab to change settings for each individual color parameter through a set of slider controls. The sliders allow you to select a continuous range of adjustment for each of the following:

- Lightness
- Contrast
- Saturation
- Cyan to Red
- Magenta to Green
- Yellow to Blue

What Do The Terms Volts, Amps, Ohms And Watts Mean?

The best way to explain these terms is to compare them to water

Voltage (V) is the potential for energy to move and is equivalent to water pressure Current (I) is a rate of flow and is measured in amps. Ohms (r) is a measure of resistance and is equivalent to the water pipe size

These three terms are related to each other with a simple formula that reads, current is equal to the voltage divided by the resistance
I=V/r

Imagine you have a tank of water with a hose connected to the bottom of this tank What happens if you increase the pressure inside of this tank? The amount of water flowing out of the hose will also increase The same is true when you increase voltage, more current will flow

What happens if you connect a larger diameter hose to this tank? The flow rate will also Increase because the resistance dropped The same is true if you use a large gauge wire when moving current The larger the wire the more current you can move through it with damaging the wire

Watts is a measure of power If you want to increase the speed of a turning water wheel you can do this in two different ways The first way is to increase the water pressure This will cause the water to hit the wheel with more force The second is to increase the

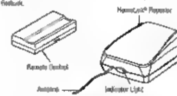
HOMELINK® REPEATER KIT

INTRODUCTION

The HomeLink® Repeater Kit is designed to allow compatibility between a new Chamberlain, Sears Craftsman, or LiftMaster garage door opener and the HomeLink® system in your vehicle. Refer to the your vehicle owner's manual for specific instructions on programming the HomeLink® system. Your model may look different than illustrated in this programming guide.

Chamberlain and LiftMaster are Trademarks of Chamberlain Group. Sears is a Trademark of Sears Roebuck.



RATING: 120 Vac, 60Hz, 35mA

⚠ WARNING

To prevent possible SERIOUS INJURY or DEATH from a moving gate or garage door:

- ALWAYS keep remote controls out of reach of children. NEVER permit children to operate, or play with remote control transmitters.
- Activate gate or door ONLY when it can be seen clearly, is properly adjusted, and there are no obstructions to door travel.
- ALWAYS keep gate or garage door in sight until completely closed. NEVER permit anyone to cross path of moving gate or door.

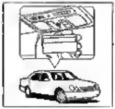
NOTICE: To comply with FCC and or Industry Canada (IC) rules, adjustment or modifications of this receiver and/or transmitter are prohibited, except for changing the code setting or replacing the battery. THERE ARE NO OTHER USER SERVICEABLE PARTS.

Tested to Comply with FCC Standards FOR HOME OR OFFICE USE. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

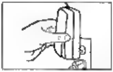
INSTALL AND PROGRAM THE HOMELINK® REPEATER

Be sure that your vehicle is parked outside of the garage before programming the HomeLink® Repeater Kit. Two people may be needed to program the HomeLink® system.

1. Program the new remote control included with the HomeLink® Repeater Kit. Refer to the owner's manual for your vehicle for programming steps.

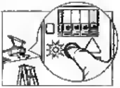


2. Plug the HomeLink® Repeater into a 120 Vac polarized outlet, located as close as possible to your garage door opener.



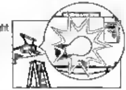
3. Straighten the antenna.

4. Press and release the YELLOW Learn button on the garage door opener. The Learn LED will glow steadily.



5. Within 30 seconds press and hold the programmed HomeLink® button in your vehicle.

6. Release the HomeLink® button when the garage door opener light blinks. If light bulbs are not installed in the garage door opener, two clicks will be heard. Programming is complete.



7. To ensure the garage door opener operates from the HomeLink® button, press the programmed HomeLink® button in the vehicle. If it does not operate the garage door opener, repeat the steps.

Potato Dumplings
Kartoffel Knodel

Serves 8

It is said that the best and most varied knödel (dumplings) are found in our neighboring region, Bavaria. This might be so, but it is also undeniable that potato dumplings are another typical example of the quickly prepared, satisfying dishes we often enjoyed in the Black Forest. They are somewhat deceiving, however. As basic as they are, even my mother, an experienced cook, often said they were a lot of work. The recipe is hardly complicated, but the most successful dough relies on the detailed eye of a watchful cook who will ensure that it is neither too wet nor too dry. In addition, once the dough comes together, shaping the dumplings requires a fairly light touch.

Lest you should be deterred, fear not. These dumplings are worth the effort and are wonderful accompaniments to rich stews and ragouts, dishes that drench the tender morsels with flavorful sauce. At home and in Gasthaus restaurants, we served them beside these dishes as well as alongside hearty braised meats. Because they require a lot of care and attention, it was, and still is, common for Gasthaus restaurants to serve them as much anticipated specials during the week.

15 slices day-old white sandwich bread, crusts removed
1 cup whole milk
7 large red-skinned potatoes, peeled and grated (about 2 cups)
2 medium yellow onions, peeled and grated (about 1 cup)
About 1/3 cup chopped fresh parsley
1 tablespoon salt
1/4 teaspoon freshly ground white pepper
1/8 teaspoon freshly grated nutmeg
1/8 teaspoon dried marjoram
3 large eggs, beaten well
All-purpose flour, for dredging

1. Place the bread in a large bowl, pour the milk over top, tossing to coat, and set aside until soggy, about 2 to 3 minutes. Using your hands, squeeze the milk out of the bread, discarding the milk, and set the bread in another large bowl.

2. Stir the grated potatoes, onions, parsley, salt, pepper, nutmeg, and marjoram into the bread. Add the eggs, mixing to combine, and shape the dough into 24 round dumplings about 1 1/2 inches in diameter.

3. Bring 2 quarts of lightly salted water to a boil in a large saucepan over high heat. Dredge the dumplings in flour, coating generously, and slip them gently into the water. Return the water to a boil, reduce the heat to medium, and cover the pan, simmering until the dumplings expand and float to the surface, about 15 minutes.

4. Remove the dumplings with a slotted spoon or a spider. Serve on a large platter, garnished with chopped parsley.

Rav Dessler on Evolution and Time II

A translation of several paragraphs of Rav Dessler's essay on evolution and time with an in-depth commentary

---

By Simcha Coffer

The following is a translation of several paragraphs of Rabbi E.E. Dessler's *maamar* on evolution and time. The essay is entitled *Zman V'Hishtalshelus* and can be found in *Michtav MeEliyahu* Volume IV, pg. 113. Please note: Anytime brackets appear in the text, they have been introduced by the translator for purposes of clarification. If you are merely looking for a literal translation, simply skip over the insertions. The intention of this translation and subsequent comments is to make Rav Dessler's views on evolution and the age of the universe accessible to those who find his essays difficult to follow in the original. For a full length article delineating Rav Dessler's views on this subject please visit www.torah.org.

Time and Evolution

Paragraph I

> *"Time – its existence[1] is only within our perception. [The true scope of] creation is far more profound than our ability to grasp and far greater than that which is represented in our physical universe. Consequently, "creation" [as a whole, encompassing all of its deeper, more profound levels] transcends any limitations of time. The concept of something being "beyond the limitations of time" cannot be fully grasped by the human intellect. Thus, when considering [the idea of something being] "beyond the limitations of time", it is projected into our minds as endless periods of time [rather than timelessness]. And thus it seems to scientists as if the world evolved over millions of years.*

Comment

This final passage is puzzling. What connection does our lack of ability to conceive timelessness have to do with scientists perceiving the unfolding of the universe in terms of millions of years? This question will be answered when we present the final chapter of R. Dessler's *maamar*.

---

[1] For a full treatment of this concept, please see *Michtav MeEliyahu* Vol. II pg. 150. Based on Rav Dessler's essay there, it appears that the word "exists" must be taken in a modified form. Furthermore, whereas the term *metzius* is normally used in an ontological sense, it is almost always used by Rav Dessler to denote cause, essence, substance or a variation of all three. In fact, in the very next paragraph, Rav Dessler uses the term *metzius* several times to denote value [*c.f.* footnote 3]. And in the paragraph after that he states openly that the definition of *metzius* is purpose. Consequently, there seems to be little doubt that in the context of this essay, the term *metzius* does not mean existence. A more accurate translation of the author's first passage would thus be as follows: "Time – the *purpose* of its existence, its raison d'etre – is solely for the facilitation of human perception." Since the sole purpose of time is to accommodate our perception, it can be rightfully said that time exists only in our perception in the sense that without human perception the creation of time would no longer be necessary. More on this in the commentary section of this paper.

RUT-50 Private Party Vehicle Use Tax Chart for 2012

Effective January 1, 2012, through December 31, 2012

The purchase price (or fair market value) of a vehicle determines which tax table to use. The purchase price is the value given for a vehicle and may be in the form of money, credit, property, or services. When there is no stated purchase price, such as in the case of a gift or even trade, the fair market value should be used. The fair market value may be obtained from a licensed dealer.

Note: A trade-in deduction is **not** allowed on this tax.

Table A

Use the table below when the purchase price (or fair market value) of a vehicle is **less than $15,000**. The tax due is determined by the model year of the vehicle.

Model year	Vehicle age (years)	Tax due ($)
2011 or newer	1 or newer	390
2010	2	290
2009	3	215
2008	4	165
2007	5	115
2006	6	90
2005	7	80
2004	8	65
2003	9	50
2002	10	40
2001	11 or older	25

Table B

Use the table below when the purchase price (or fair market value) of a vehicle is **$15,000 or more.** The tax due is determined by the purchase price (or fair market value) of the vehicle.

Purchase price (or fair market value) ($)	Tax due ($)
15,000 to 19,999.99	750
20,000 to 24,999.99	1,000
25,000 to 29,999.99	1,250
30,000 or more	1,500

Other transaction types that may be reported on Form RUT-50 are listed below along with the required tax amount due.

Exemptions

If one of the following exemptions apply, **the tax due is $0.**

- purchaser is a tax-exempt organization
- vehicle is a farm implement primarily used in production agriculture and not required to be registered under the Illinois Vehicle Code or is a ready-mix concrete truck that qualifies under the manufacturing machinery and equipment exemption
- vehicle is used for rolling stock
- purchaser was an out-of-state resident and vehicle was used outside of Illinois for at least three months (individuals only)
- vehicle is an estate gift to a surviving spouse

Exceptions

If one of the following exceptions apply, **the tax due is $15.**

- vehicle is an estate gift to a beneficiary other than a surviving spouse
- vehicle is being transferred in a business reorganization
- vehicle is being transferred or purchased from a spouse, parent, brother, sister, or child

Motorcycles or ATVS

If the purchase is a motorcycle, motor driven cycle, 3- or 4-wheel all terrain vehicle (ATV), or motorized pedalcycle, **the tax due is $25.**

Refund. Even if you do not have to file a tax return, you should file to get a refund if box 2 shows federal income tax withheld or if you can take the earned income credit.

Earned income credit (EIC). You must file a tax return if any amount is shown in box 9.

You may be able to take the EIC for 2010 if (a) you do not have a qualifying child and you earned less than $13,460 ($18,470 if married filing jointly), (b) you have one qualifying child and you earned less than $35,535 ($40,545 if married filing jointly), or (c) you have two qualifying children and you earned less than $40,363 ($45,373 if married filing jointly), or (d) you have three or more qualifying children and you earned less than $43,352 ($48,362 if married filing jointly). You and any qualifying children must have valid social security numbers (SSNs). You cannot take the EIC if your investment income is more than $3,100. **Any EIC that is more than your tax liability is refunded to you, but only if you file a tax return.** If you have at least one qualifying child, you may get as much as $1,830 of the EIC in advance by completing Form W-5, Earned Income Credit Advance Payment Certificate, and giving it to

Clergy and religious workers. If you are not subject to social security and Medicare taxes, see Pub. 517, Social Security and Other Information for Members of the Clergy and Religious Workers.

Corrections. If your name, SSN, or address is incorrect, correct Copies B, C, and 2 and ask your employer to correct your employment record. Be sure to ask the employer to file Form W-2c, Corrected Wage and Tax Statement, with the Social Security Administration (SSA) to correct any name, SSN, or money amount error reported to the SSA on Form W-2. If your name and SSN are correct but are not the same as shown on your social security card, you should ask for a new card that displays your correct name at any SSA office or call 1-800-772-1213. You also may visit the SSA at *www.socialsecurity.gov*.

Credit for excess taxes. If you had more than one employer in 2010 and more than $6,621.60 in social security and/or Tier I railroad retirement (RRTA) taxes were withheld, you may be able to claim a credit for the excess against your federal income tax. If you had more than one railroad employer and more than $3,088.80 in Tier II RRTA tax was withheld, you also may be able to claim a [illegible] *Employee* on the back of Copy C.)

Any amount over $5,000 also is included in box 1. Complete Form 2441, Child and Dependent Care Expenses, to compute any taxable and nontaxable amounts.

Box 11. This amount is (a) reported in box 1 if it is a distribution made to you from a nonqualified deferred compensation or nongovernmental section 457(b) plan or (b) included in box 3 and/or 5 if it is a prior year deferral under a nonqualified or section 457(b) plan that became taxable for social security and Medicare taxes this year because there is no longer a substantial risk of forfeiture of your right to the deferred amount.

[illegible] E, F, and S) and designated Roth contributions (codes AA and BB) under all plans are generally limited to a total of $16,500 ($11,500 if you only have SIMPLE plans; $19,500 for section 403(b) plans if you qualify for the 15-year rule explained in Pub. 571). Deferrals under code G are limited to $16,500. Deferrals under code H are limited to $7,000.

However, if you were at least age 50 in 2010, your employer may have allowed an additional deferral of up to $5,500 ($2,500 for section 401(k)(11) and 408(p) SIMPLE plans). This additional deferral amount is not subject to the overall limit on elective deferrals. For code G, the limit on elective deferrals may be higher for the last 3 years before you reach retirement age. Contact your plan administrator for more information. Amounts in excess of the overall elective deferral limit must be included in income. See the "Wages, Salaries, Tips, etc." line instructions for Form 1040.

Note. If a year follows code D through H, S, Y, AA, or BB, you made a make-up pension contribution for a prior year(s) when you were in military service. To figure whether you made excess deferrals, consider these amounts for the year shown, not the current year. If no year is shown, the [illegible] 1040. See "Total Tax" in the Form 1040 instructions.

B—Uncollected Medicare tax on tips. Include this tax on Form 1040. See "Total Tax" in the Form 1040 instructions.

C—Taxable cost of group-term life insurance over $50,000 (included in boxes 1, 3 (up to social security wage base), and 5)

D—Elective deferrals to a section 401(k) cash or deferred arrangement. Also includes deferrals under a SIMPLE retirement account that is part of a section 401(k) arrangement.

E—Elective deferrals under a section 403(b) salary reduction agreement

F—Elective deferrals under a section 408(k)(6) salary reduction SEP

G—Elective deferrals and employer contributions (including nonelective deferrals) to a section 457(b) deferred compensation plan

H—Elective deferrals to a section 501(c)(18)(D) tax-exempt organization plan. See "Adjusted Gross Income" in the Form 1040 instructions for how to deduct.

J—Nontaxable sick pay (information only, not included in boxes 1, 3, or 5)

K—20% excise tax on excess golden parachute payments. See "Total Tax" in the Form 1040 instructions.

L—Substantiated employee business expense reimbursements (nontaxable)

M—Uncollected social security or RRTA tax on taxable cost of group-term life insurance over $50,000 (former employees only). See "Total Tax" in the Form 1040 instructions.

N—Uncollected Medicare tax on taxable cost of group-term life insurance over $50,000 (former employees only). See "Total Tax" in the Form 1040 instructions.

P—Excludable moving expense reimbursements paid directly to employee [illegible] 1040A for details on reporting this amount.

R—Employer contributions to your Archer MSA. Report on Form 8853, Archer MSAs and Long-Term Care Insurance Contracts.

S—Employee salary reduction contributions under a section 408(p) SIMPLE (not included in box 1)

T—Adoption benefits (not included in box 1). Complete Form 8839, Qualified Adoption Expenses, to compute any taxable and nontaxable amounts.

V—Income from exercise of nonstatutory stock option(s) (included in boxes 1, 3 (up to social security wage base), and 5). See Pub. 525 and instructions for Schedule D (Form 1040) for reporting requirements.

W—Employer contributions (including amounts the employee elected to contribute using a section 125 (cafeteria) plan) to your health savings account. Report on Form 8889, Health Savings Accounts (HSAs).

Y—Deferrals under a section 409A nonqualified deferred compensation plan.

Z—Income under section 409A on a nonqualified deferred compensation plan. This amount is also included in box 1. It is subject to an additional 20% tax plus interest. See "Total Tax" in the Form 1040 instructions.

BB—Designated Roth contributions under a section 403(b) plan

CC—For employer use only: HIRE exempt wages and tips

Box 13. If the "Retirement plan" box is checked, special limits may apply to the amount of traditional IRA contributions that you may deduct.

Note. Keep Copy C of Form W-2 for at least 3 years after the due date for filing your income tax return. However, to help protect your social security benefits, keep Copy C until you begin receiving social security benefits, just in case there is a question about your work record and/or earnings in a particular year. Compare the Social Security wages and the Medicare wages to the information shown on your annual (for workers over 25) Social Security Statement.

Twas the month before Christmas
When all through our land,
Not a Christian was praying
Nor taking a stand.
Why the Politically Correct had taken away,
The reason for Christmas - no one could say.
The children were told by their schools not to sing,
About Shepherds and Wise Men and Angels and things.
It might hurt people's feelings, the teachers would say
December 25th is just a "Holiday".
Yet the shoppers were ready with cash, checks and credit
Pushing folks down to the floor just to get it!
CDs from Madonna, an X BOX, an I-pod
Something was changing, something quite odd!
Retailers promoted Ramadan and Kwanzaa
In hopes to sell books by Franken & Fonda.
As Targets were hanging their trees upside down
At Lowe's the word Christmas - was no where to be found.
At K-Mart and Staples and Penny's and Sears
You won't hear the word Christmas; it won' t touch your ears.
Inclusive, sensitive, Di-ver-si-ty
Are words that were used to intimidate me.
Now Daschle, Now Darden, Now Sharpton, Wolf Blitzen
On Boxer, on Rather, on Kerry, on Clinton !
At the top of the Senate, there arose such a clatter
To eliminate Jesus, in all public matter.
And we spoke not a word, as they took away our faith
Forbidden to speak of salvation and grace.
The true Gift of Christmas was exchanged and discarded
The reason for the season, stopped before it started.
So as you celebrate "Winter Break"
under your "Dream Tree"
Sipping your Starbucks, listen to me.
Choose your words carefully, choose what you say

Shout
MERRY CHRISTMAS,
not Happy Holiday!

Ten things we know to be true

"The perfect search engine," says co-founder Larry Page, "would understand exactly what you mean and give back exactly what you want." When Google began, you would have been pleasantly surprised to enter a search query and immediately find the right answer. Google became successful precisely because we were better and faster at finding the right answer than other search engines at the time.

But technology has come a long way since then, and the face of the web has changed. Recognizing that search is a problem that will never be solved, we continue to push the limits of existing technology to provide a fast, accurate and easy-to-use service that anyone seeking information can access, whether they're at a desk in Boston or on a phone in Bangkok. We've also taken the lessons we've learned from search to tackle even more challenges.

As we keep looking towards the future, these core principles guide our actions.

> We first wrote these "10 things" several years ago. From time to time we revisit this list to see if it still holds true. We hope it does—and you can hold us to that. (September 2009)

1. **Focus on the user and all else will follow**
   Since the beginning, we've focused on providing the best user experience possible. Whether we're designing a new Internet browser or a new tweak to the look of the homepage, we take great care to ensure that they will ultimately serve **you**, rather than our own internal goal or bottom line. Our homepage interface is clear and simple, and pages load instantly. Placement in search results is never sold to anyone, and advertising is not only clearly marked as such, it offers relevant content and is not distracting. And when we build new tools and applications, we believe they should work so well you don't have to consider how they might have been designed differently.

2. **It's best to do one thing really, really well**
   We do search. With one of the world's largest research groups focused exclusively on solving search problems, we know what we do well, and how we could do it better. Through continued iteration on difficult problems, we've been able to solve complex issues and provide continuous improvements to a service that already makes finding information a fast and seamless experience for millions of people. Our dedication to improving search helps us

OCWEN FINANCIAL FORM Page 1 of 4

GENERAL INSTRUCTIONS TO COMPLETE FINANCIAL FORM

The Financial Form should be completed for each borrower whose income is used to pay the loan and/or related property charges.

1. CURRENT EMPLOYMENT INFORMATION

- Borrowers should only complete requested employer information if they are currently working for employer
- Borrowers who are not currently employed should indicate they are "Unemployed" in the box provided.

2. INCOME RECEIVED PER MONTH

- *All* figures should represent the total amount received in a month for that income category
- *GROSS Pay* – This is the amount of compensation received by an employee each month before any deductions are made for taxes, health benefits, 401k contributions, etc.
- *NET Pay* – This is the amount of compensation received by the employee each month after all deductions are made for taxes, health benefits, 401k contributions, etc. This would be the actual dollar amount on the pay check or amount deposited into the employee's bank account, if direct deposit is used
- *Overtime Pay, Commissions and Bonuses* – This should be based on a monthly average since the amount received can vary on a monthly basis. For example, if bonus income of $1,200 is received on an annual basis, the amount entered should be $100 ($1,200 divided by 12 months = $100).
- *Self Employed Borrowers* – The total amount of income received per month should be reflected in the Profit and Loss Statement to be provided under the Checklist in Step 2. A Profit and Loss Statement is a financial statement that summarizes the revenues, costs and expenses incurred during a specific period of time – usually a fiscal quarter or year
- *Alimony and Child Support* – Alimony and child support need not be revealed if the Borrower or Co-Borrower(s) do not choose to have it considered for repaying this loan
- *GROSS Rental Income* – The total amount of rental income includes all rental income received from space rented within the subject property as well as any additional investment properties or second homes identified in Section 7

3. COMBINED ASSETS

- Total account balances for checking, savings or money market accounts should be entered under the specified account type
- An Employee Stock Ownership Plan (ESOP) is an employee benefit plan which makes the employees of a company owners of stock in that company
- Real Estate assets such as investment properties or if you own a second home should be entered in Section 7

4. HOUSING EXPENSES PAID PER MONTH

- Expenses input in this section should be for the property that is subject to the note and mortgage for which the borrower is seeking financial assistance from Ocwen
- *Monthly Property Tax Payment* – The amount entered should be your annual property tax assessment divided by 12 months. For example, if your property taxes for 2010 on the subject property are $6,000, then the amount you should enter would be $500 ($6,000 divided by 12 months = $500)

5. SECTION 7 – RENTAL INCOME

- This section must be completed (in addition to listing it under Section 2) for rental income to be considered.
- This section should include Investment Properties and Second Homes.

Step by Step Procedure for Using the Rule 1401 Evaluation Program

***NOTE**: Due to the extensive use of macros and programming in this spreadsheet, you will need to lower your Microsoft Excel computer security setting to at least "Medium" prior to opening this file in order to use the Rule 1401 Evaluation Calculator. Setting your security to "Medium" allows you the ability to decide whether to enable the macros in this calculator or not. If you choose to not enable the macros, the calculator will not work!*

To do this, open Excel and click on Tools / Macro / Security and select either "Medium" or "Low". The selection window provides an explanation of what the selections mean. When this security is set you can then open the Rule 1401 Evaluation Calculator.

Instructions.

1. From the **INTRO Worksheet**, click on **Emissions** button.
2. In the **Emissions** worksheet, all cells highlighted in yellow are for data entry.
3. Enter the Deemed Complete Date
4. Enter the Operating Schedule
5. For the Emission Units, from the drop list, pick either the lbs/hour or PPMv.
6. Enter the combustion efficiency, 0.8 to 1.0 for non-combustion sources. This will calculate the R2 values
7. The T-BACT question is a Yes or No drop-down list (when you click on the field, a drop-down arrow appears. Click on the arrow for the selection.
8. Similarly pick P for point source or V for Volume source
9. Enter the stack or building height and building area for Volume source
10. Enter the nearest commercial and residential receptor distances
11. The Meteorology station is a drop-down list also. Pick the appropriate station
12. **Source type: Drop down list. It is critical that for Non Combustion Source, pick O -other. The other choices are for LeanBurn ICE, RichBurn ICE, and boiler.**
13. **Screening Mode: Pick Yes only for Tier 3 analysis (If using SCREEN or TSCREEN program)**
14. Scroll down to the **Emissions** area
15. Select the code for the toxic air contaminant by either entering the code e.g. C1, G4, etc or click on the Go to Chemical Code Table to identify the code to enter. The toxic air contaminants are arranged in alphabetic order.
16. Enter the emissions in lb/hour or in PPMv in the lb/hr or PPMv column (the pollutant name may cover the cell, but you can still enter the data)

The spreadsheet program will calculate Tier I and Tier II values and will provide the results. You can go back to the INTRO worksheet by clicking on the INTRO button on the upper left hand corner. You can then go to the Tier I or Tier II worksheet from here or by directly clicking on the bottom worksheet.

You can fax something interesting to 1 888 877 1655 (your boss will never notice... maybe) or 1 503 200-1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

How To Get Out Of Shopping With The Wife (1)

Yesterday my wife received the following letter from our local Target store:

Dear Madam: your husband has been causing trouble in our store. We request you leave him at home. Our video surveillance team noted the following incidents:

He sneaked boxes of condoms into other people's carts.

He set all the alarm clocks to go off at 5-minute intervals.

He left a trail of tomato juice on the floor in front of the women's restroom.

He told an employee in an official voice: "Code 3 in housewares. Stat!"

He tried to put a bag of candy on layaway.

He moved the "Caution -- Wet Floor" sign to a carpeted area.

He set up a tent in the camping department and told children they could come inside if they brought a blanket from the bedding department -- and twenty obliged.

Safety information

⚠

Always follow basic safety precautions when using this product to reduce risk of injury from fire or electric shock.

1. Read and understand all instructions in the documentation that comes with the printer.

2. Observe all warnings and instructions marked on the product.

3. Unplug this product from wall outlets before cleaning.

4. Do not install or use this product near water, or when you are wet.

5. Install the product securely on a stable surface.

6. Install the product in a protected location where no one can step on or trip over the line cord, and the line cord cannot be damaged.

7. If the product does not operate normally, see Solve a problem.

8. There are no user-serviceable parts inside. Refer servicing to qualified service personnel.

Accessibility

The printer provides a number of features that make it accessible for people with disabilities.

Visual

The printer software is accessible for users with visual impairments or low vision through the use of your operating system's accessibility options and features. It also supports most assistive technology such as screen readers, Braille readers, and voice-to-text applications. For users who are color blind, colored buttons and tabs used in the software and on the printer control panel have simple text or icon labels that convey the appropriate action.

Mobility

For users with mobility impairments, the printer software functions can be executed through keyboard commands. The software also supports Windows accessibility options such as StickyKeys, ToggleKeys, FilterKeys, and MouseKeys. The printer doors, buttons, paper trays, and paper guides can be operated by users with limited strength and reach.

Support

For more details about the accessibility of this product and HP's commitment to product accessibility, visit HP's website at www.hp.com/accessibility.

For accessibility information for Mac OS X, visit the Apple website at www.apple.com/accessibility.

Key: A (Capo 2)

Verse 1

G                                  G
I've heard a thousand stories of what they think You're like

G                                        D
But I've heard the tender whisper of love in the dead of night

      C       G/Bm                          Am7        G
You tell me that you're pleased and that I'm never alone

Chorus:

                          C
You're a good, good father

                   C                       Am7          G
It's who You are, it's who You are, it's who You are

                      C
And I'm loved by You

                 C               Am7           G
It's who I am, it's who I am, it's who I am

Verse 2

G                               G
I've seen many searching for answers far and wide

G                                    D
But I know we're all searching for answers only you provide

          C            G/Bm                  Am7
Because You know just what we need before we say a word

CALIFORNIA TRAVEL BROCHURE

Your brochure will include a front cover and five other panels. Each section will be due at a different time over the next several weeks. Due dates may be extended to a later date at my discretion to accommodate tests and other projects in the homework schedule.

Information on the panels may be printed or typed by the student. Each section will be graded on grammar, spelling, content and neatness/creativity. The paragraphs should be indented and **In your own words**. Plagiarism is unacceptable. Include a topic heading for each section. Paragraphs should be a *minimum* of seven sentences.

Pictures may be hand drawn by the student using crayons, colored pencils or pens. Pictures from magazines, computers, or photographs are also acceptable, but they must be glued on to the brochure (not taped or stapled). Borders and other additions may be used to enhance any and all sections.

You can assist your child and search the Internet for information by category. Some general California web sites for information and good links are:

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

You can easily change the formatting of selected text in the document text by choosing a look for the selected text from the Quick Styles gallery on the Home tab. You can also format text directly by using the other controls on the Home tab. Most controls offer a choice of using the look from the current theme or using a format that you specify directly.

To change the overall look of your document, choose new Theme elements on the Page Layout tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style Set command. Both the Themes gallery and the Quick Styles gallery provide reset commands so that you can always restore the look of your document to the original contained in your current template.

I propose to change the system so that when density card output is requested, plotted densities are punched out. In the normal case these would simply be the average densities. If the test code calls for E.N.D. conversion, it would be the E.N.D. densities that are punched out. If the test breaks down, e.g. because of range check failure, we would get cards punched out for individual strips, since individuals are plotted in that case.

I would appreciate your comments on this proposal by January [illegible], 1971.

The Declaration of Independence

Almost everyone knows that Thomas Jefferson wrote the Declaration of Independence. However did you know that, like most people who write something, he wrote at least one rough draft? This is an example of what's left of the earliest known draft of the Declaration. You can see that Jefferson heavily edited his first draft before he prepared a clean or "fair" copy that became the basis of the "original rough draught." The other representatives from the 13 colonies selected Jefferson to write the Declaration because they all agreed he was the best writer. Do you know any of the words of the Declaration of Independence by heart?

The inequality gaps used for the experiment were ±10 and ±5 percent. The percentage error is averaged over six images of size 321 × [illegible]. Bold indicates the best error and time in each row.

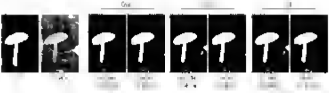

Fig. 4. Examples of segmentations computed by LR, QR, and our method. Inequality gaps for each constraint combination are [illegible] percent. The size of the image is [illegible].

Recall that our method runs by calling the oracle and solving the LP in (12) at each iteration. Since we consider the pixel grid graph, the oracle call, which involves minimizing a submodular pseudo-boolean function using the graph cut algorithm, takes very little time. The number of variables constituting the LP in (12) for our approach is small. Furthermore, for all constraint combinations in Table 2, the total number of iterations does not exceed 50 (average 27, std. 11.7), making the number of constraints of the LP small. The small size of the LP enables our method to run much faster than LR, which has to solve a relatively large linear programming problem.

The results of our experiments comparing the computational complexity of the three methods (ours, LR, QR) are shown in Fig. 6. We used four 1,024 × 1,024 images, and each image was scaled down to eight small images of size $2^k \times 2^k$ ($3 \le k \le 10$). Each data point denotes the average running time of the specified method over four images having the same size specified on the x-axis values. It can be seen that our method is substantially faster than the state-of-the-art LR and QR based approaches. Fig. 5 shows segmentation results yielded by our method for four original images of size 1,024 × 1,024.

Table 3 shows how solutions by the three methods satisfy given constraints. Here, we used two measures: ER_s and ER_d. ER_s denotes the percentage of constraints that are unsatisfied. For instance, if the size and variance constraints are considered and one of them is not satisfied, then ER_s is counted as 0.5. ER_d represents the deviation of the constraint values from the inequality gap, thus providing a measure of the degree of satisfaction. For instance, let the inequality gap for Sz be $[a, b]$ and the size of a computed solution be c. ER_d is then counted by $\min(|c-a|, |c-b|)/((a+b)/2)$ if $c \notin [a, b]$ and counted by 0 if $c \in [a, b]$. We observed that solutions computed by three methods satisfy the constraints or are very close to the constraints gap in general.

Fig. 5. Examples of segmentations by our method. Each original image has a size of 1,024 × 1,024.

7 DISCUSSION AND CONCLUSIONS

We have proposed a novel approach to constrained energy minimization. Our method is efficient and can handle a very large class of constraints including those that enforce second order statistics, which cannot be achieved by using previously proposed methods since they usually requires the convexity of the problem [16], [18], [26]. To handle such second order constraints, the boundary length constraint in our paper, we use a restricted search region in which the dual is computable. In our cases, the dual maximum is always found in that restricted search region which means that it does not affect the accuracy of our method. Although our approach can be used with continuous relaxations based methods [14], [26], it would require repeated solutions of the relaxed problem to find

Illegal Immigration and Enforcement Along the U.S.–Mexico Border: An Overview

Pia M. Orrenius

This article evaluates the determinants of illegal Mexico–U.S. migration and gives an overview of the enforcement and policy responses to date.

The U.S.–Mexico border is experiencing an era of unparalleled trade and exchange. But at a time when legal flows of goods and people are at historical highs, so are illegal cross-border flows of undocumented migrants. Illegal immigration from Mexico became more common in the late 1960s, following the end of the Bracero Program in 1964. The Bracero Program allowed Mexican guest workers to work legally in the United States. Over the past three decades, illegal immigration along the Southwest border has increased, and enforcement efforts have intensified as a result. Border apprehensions have grown from 200,000 in 1970 to more than 1.5 million in 1999.

The cumulative impact of this immigrant flow is a sizable illegal immigrant population. The undocumented immigrant population from Mexico was estimated at 3.1 million in 1997. Mexicans make up about 60 percent of the total undocumented population of the United States, and Central Americans from El Salvador, Guatemala, Honduras, and Nicaragua make up another 13 percent (U.S. INS 1999). Whereas some undocumented immigrants arrive legally and simply overstay their tourist visas, the majority of illegal Mexican and Central American immigrants residing in the United States cross the border without documents. It is estimated that the net inflow of illegal immigrants from Mexico, excluding short-term cyclical migrants, averaged about 202,000 immigrants per year between 1987 and 1996.

This article evaluates the determinants of illegal Mexico–U.S. migration and gives an overview of enforcement and policy responses. Many observers, noting the large number of illegal immigrants, have concluded that border enforcement provides little deterrent. Some research supports this view. Singer and Massey (1998) show declining apprehension rates along the border in the 1980s and early 1990s. Other research shows that apprehended migrants simply attempt additional border crossings until they succeed—also suggesting increased enforcement has little impact (Kossoudji 1992).

On the other hand, there is evidence increased border enforcement is correlated with falling wages for young males in Mexican border cities (Hanson, Robertson, and Spilimbergo 1999). This could imply that tougher border enforcement has the effect of trapping would-be immigrants on the Mexican side of the border. Publicized reports about the increase in migrant deaths also imply that tougher border enforcement sends migrants on circuitous routes into the United States (Nevins 2000, Rosenblum

Troubleshoot problems with Windows Mail

Here are solutions to some common problems with Windows Mail.

⊞ I can't receive e−mail

⊟ I can receive, but not send, e−mail messages.

If you can successfully receive e−mail messages, but can't send messages, then Windows Mail is having problems connecting to the outgoing e−mail server that's used to send messages. These are likely possibilities

- If you've never been able to send e−mail successfully using Windows Mail, your e−mail account is probably not set up properly. First, follow the steps to verify your e−mail account information in the "I can't receive e−mail" section of this help topic. If you verify that your e−mail account information is entered properly, you might need to change your authentication settings so that when sending mail, you sign in using your e−mail user name and password. Check with your e−mail provider to see if it requires authentication for sending e−mail.

  To use authentication when sending e−mail

  1. Click to open Windows Mail
  2. Click the Tools menu, and then click Accounts.
  3. Under Mail, click your e−mail account, and then click Properties.
  4. Click the Servers tab, and then, under Outgoing Mail Server, select the My server requires authentication check box.
  5. If the account information that you use to send e−mail is not the same information that you use to receive messages, click Settings, click Log on using, and then enter the user name and password that you use to send e−mail

- Many Internet service providers (ISPs) require you to be directly connected to their network to use their outgoing e−mail servers. If you're using a mobile PC and connect to the Internet using a different ISP (such as when using a wireless connection at a hotel), you may be able to receive, but not send, e−mail. Some ISPs will allow you to send e−mail when connected to a different provider if you use authentication when sending. Follow the steps above to use authentication when sending e−mail. If your ISP doesn't allow this, you'll need to find out the name of the

animi, id est laborum et dolorum fuga. Et harum quidem rerum facilis est et expedita distinctio. Nam libero tempore, cum soluta nobis est eligendi optio cumque nihil impedit quo minus id quod maxime placeat facere possimus, omnis voluptas assumenda est, omnis dolor repellendus. Temporibus autem quibusdam et aut officiis debitis aut rerum necessitatibus saepe eveniet ut et voluptates repudiandae sint et molestiae non recusandae. Itaque earum rerum hic tenetur a sapiente delectus, ut aut reiciendis voluptatibus maiores alias consequatur aut perferendis doloribus asperiores repellat."

Traduction de H. Rackham (1914)

"On the other hand, we denounce with righteous indignation and dislike men who are so beguiled and demoralized by the charms of pleasure of the moment, so blinded by desire, that they cannot foresee the pain and trouble that are bound to ensue; and equal blame belongs to those who fail in their duty through weakness of will, which is the same as saying through shrinking from toil and pain. These cases are perfectly simple and easy to distinguish. In a free hour, when our power of choice is untrammelled and when nothing prevents our being able to do what we like best, every pleasure is to be welcomed and every pain avoided. But in certain circumstances and owing to the claims of duty or the obligations of business it will frequently occur that pleasures have to be repudiated and annoyances accepted. The wise man therefore always holds in these matters to this principle of selection: he rejects pleasures to secure other greater pleasures, or else he endures pains to avoid worse pains."

CONVERTIBLE™

H-Series

Dramatic advances in medical technologies have been made in recent years. However, the difficult and awkward process of transferring a patient from bed to chair and back again is still a strenuous and dangerous process that frequently results in injury to both patient and caregiver.

Barton® Convertible™ H 250

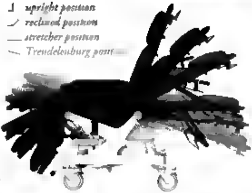
The Barton® *Convertible™ H-250* chair and *Positioning and Transfer System™* (PTS™) pioneers the "No-Lift" solution that is revolutionizing healthcare by providing a safe, comfortable and dignified method of transferring and moving non- and limited-ambulatory patients. Tested and proven in hospitals, rehab facilities, nursing homes and home-care environments, the Barton® *Convertible™ H-250* can help reduce both time and caregivers required, while significantly reducing patient and costs.

Standard Features

- Reclines to stretcher position to transfer between bed and chair
- Tilt-in-Space capability providing pressure relief
- Fully adjustable headrest with side-support
- Unlimited reclining positions available for patient comfort
- Trendelenburg position capability
- Sturdy steel frame accommodates patients weighing up to 250 lbs.
- Overall 24-inch chair width can move through standard doorways

Options

- Integrated digital scale conveniently weighs patients in seconds, accurate to 1/10 lb.
- IV Pole
- O^2 Tank Holder



The Barton® *Convertible™ H-Series* easily adjusts to a variety of comfortable positions: upright, reclined, stretcher and Trendelenburg position

A Fully adjustable headrest includes side support.

B Comfortable Tilt-in-Space positioning.

C Sturdy 6-inch casters maneuver gently and easily on carpet, tile or hardwood floors.

To Whom It May Concern,

I live in East Rutherford NJ I need help identifying and eradicating a pest on my indoor plants I think it came in on plants I brought in for the winter I've been fighting it all winter long They are on small 6 month old newly rooted fig trees. It is very tiny, approx 1/32" long and very thin

With a loupe I've see larvae and what I think are adults I've looked at hundreds of pictures of larvae but did not find an exact match The larvae are similar to this, very small, very slow moving

http //whatcom wsu edu/ipm/manual/black/images/OT_larvae jpg

The adults are not much bigger than the larvae. They seem to jump if I get close They are too small to actually see them jump, they just disappear quickly I've tried hot pepper wax, insecticidal soap and neem oil I'm currently using Pyola which is very effective at killing them but in 7-10 days they are back I don t actually see any plant damage but they must be living off something. Is there any place in Bergen Country where I could bring a small plant and show them? I need help It's almost time to start my vegetable seeds

A revolution in six steps!

Are you sick of reading about how complicated revolutions are to make? If so, you have come to the right place! Here you can learn how easy it is to make a revolution- Just six easy steps.

Ingredients:

A large lower class (or slaves) pan

A pinch of wealthy people

A generous amount of poverty to grease the lower class pan (two or three tbsps.)

One cup of rebellions (peaceful or violent- your choice)

One cup heavy taxes

Two cups biased laws

½ cup of no common representation in government

¼ cup of external tensions

¼ cup of corruption

1 tsp weapons

One [illegible] leader

1 tsp of war

*New government- flavored icing

*Democracy- sprinkles

Optional a pinch of enlightenment thinkers

Optional a pinch of radicals

This recipe takes 1-5 years.

1) First, be sure to have a large lower class (or slave) pan to carry out your revolution in. Take a generous amount of poverty and grease the lower class pan with this. Also sprinkle a pinch of radicals into the pan if you wish.

2) In a separate bowl, add a pinch of wealthy people. Also add one cup of heavy taxes, ¼ cup of corruption, and two cups of biased laws. Mix this together very well. This is your government mixture.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.

- PDF files *always print correctly* on any printing device.

- PDF files always display *exactly* as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.

- The free Acrobat Reader is easy to download and can be freely distributed by anyone.

- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Windows 10: Search not working

Search not working

So I have W10 Home version build 15063.413 and the search function is, well, not really functioning

I try clicking on "This PC" and in the "Search this PC" I enter a search term, say U2 (I have several of their albums in My Music) and I press enter. Nothing happens.

Or I go to Start and scroll to search and get more or less the same results. This method gets me all kinds of links to go buy stuff but to find what is already on my PC the search function is pretty lame. W7 found results every time, w10 just points me at things to buy

A little frustrated

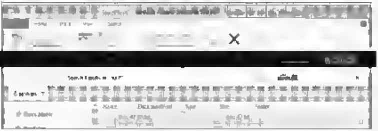
Hi, assuming you are relatively unfamiliar with Win 10, there are different instances of search, with different significance

1. There is search for files and folders using the search field in File Explorer



[redacted]

In this case, a content search for aardvark found indexed text files.

2. Settings
Search in Settings finds- yes- useful settings

3. Cortana search
Typically a search field in the taskbar, or via Windows key + S, or Hey cortana

thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.

- PDF files ***always print correctly*** on any printing device.

- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.

- The free Acrobat Reader is easy to download and can be freely distributed by anyone.

- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.
3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.
2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.
3. On the toolbar, click **New Scan**.
4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it Here s how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-888-877 1655 (a toll-free number in the United States.) When it s finished transmitting, point your web browser to Fax Toy — it s a fun web site that displays whatever is faxed to that number Within a minute your fax should appear on the site Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Medicare B Premium Reimbursements through SHAP
Note. If you or an eligible dependent are enrolled in Medicare Parts A and B, you may be eligible for SHAP.

Eligibility.

- **If you retired December 31, 1990 or prior,** you are eligible to apply for 80% reimbursement of any Medicare B premium in excess of the amount included in your pension or Medicare B payment. The annual maximum reimbursement per family, including the amount in the pension or Med B payment, will not exceed $900.

- **If you retired after December 31, 1990, but before** December 31, 1996, you are eligible to apply for 80% reimbursement of your Medicare B premium. The annual maximum reimbursement per family is $900.

- **If you retired after December 31, 1996,** and qualify for Medicare on the basis of age, you and your eligible family members will not be eligible for Medicare B premium assistance through the Special Health Assistance Program.

- **Disability prior to age 65.** Regardless of retirement date, Medicare B premium assistance applies to employees/retirees and their eligible family members who are under the age of 65 and are covered under Medicare Parts A and B on the basis of disability. **The benefit ceases upon the 65th birthday of the recipient,** unless the recipient meets one of the above retirement eligibility criteria.

- **Plan changes for Dependents.** In accordance with plan changes that became effective on January 1, 2005, dependents (such as new spouse, domestic partner, children acquired by birth, adoption, or marriage) acquired after December 31, 2004 are not eligible for SHAP reimbursement under Medicare Part B Premium assistance.

IBM Couples

- **If both IBM retirees have a retirement date prior to** December 31, 1996, please submit separate forms. Both IBM retirees are eligible to receive 80% reimbursement of their Medicare Part B premium, not to exceed the annual maximum per employee.

- **If your IBM date of retirement is after December 31, 1996, and you are the spouse of an IBM retiree with a date of retirement prior to December 31, 1996,** you are eligible to receive 80% reimbursement of your Medicare Part B premium as a dependent of the eligible retiree. The annual maximum reimbursement per family is $900.

Additional Considerations:

- Reimbursements can be made only to the employee, retiree, eligible surviving spouse or eligible surviving dependent. Assignment of benefits is not permitted.

- Only Medicare B premiums incurred in a given calendar year can be applied to your maximum benefit for that year.
- The annual maximum includes all amounts you receive from IBM via SHAP and Medicare Part B pension payments combined.
- Neither SHAP reimbursements nor Med B payments are considered taxable income.

How to Submit a Claim

The Special Health Assistance Provision (SHAP) of the IBM Medical Plan is administered on a calendar year basis. **All claims must be postmarked by December 31 of the following year.** Please refer to the Summary Plan Description for complete details.

- **Complete Sections I–II on the front of this form.** Send the completed form to the address below:

  Acclaris Reimbursement Center
  PO Box 2507
  Lehigh Valley, PA 18002-5171

- **Keep a copy of the form for your records.** This will help you reconcile your request with the explanation of benefits (EOB) statement that you will receive from the Acclaris Reimbursement Center.

- **Be sure the form is completed in full, signed, and dated.** Incomplete or improperly completed submissions will be returned for correction and resubmission.

- **If you are submitting requests for multiple years,** please use separate forms. All forms must be postmarked by December 31 of the following year.

- **Reimbursement requests can be submitted quarterly.** Please do not submit requests on a monthly basis. No evidence of premium payment is required to submit a request.

- **Direct deposit to your checking or savings account is available.** Call the Acclaris Reimbursement Center for an application.

For questions related to payments or to request a direct deposit application, please contact the Acclaris Reimbursement Center at 1-888-880-2775.

For questions related to plan details, please contact the IBM Employee Services Center at 1-800-796-9876 (TTY 1-800-426-6537).

A **LIMITED WARRANTY.** If you follow the instructions and the software is properly licensed, the software will perform substantially as described in the Microsoft materials that you receive in or with the software.

B **TERM OF WARRANTY; WARRANTY RECIPIENT; LENGTH OF ANY IMPLIED WARRANTIES. The limited warranty covers the software for one year after acquired by the first user. If you receive supplements, updates, or replacement software during that year, they will be covered for the remainder of the warranty or 30 days, whichever is longer.** If the first user transfers the software, the remainder of the warranty will apply to the recipient.

To the extent permitted by law, any implied warranties, guarantees or conditions last only during the term of the limited warranty. Some states do not allow limitations on how long an implied warranty lasts, so these limitations may not apply to you. They also might not apply to you because some countries may not allow limitations on how long an implied warranty, guarantee or condition lasts.

C **EXCLUSIONS FROM WARRANTY.** This warranty does not cover problems caused by your acts (or failures to act), the acts of others, or events beyond Microsoft's reasonable control.

D **REMEDY FOR BREACH OF WARRANTY. Microsoft will repair or replace the software at no charge. If Microsoft cannot repair or replace it, Microsoft will refund the amount shown on your receipt for the software. It will also repair or replace supplements, updates and replacement software at no charge. If Microsoft cannot repair or replace them, it will refund the amount you paid for them, if any. You must uninstall the software and return any media and other associated materials to Microsoft with proof of purchase to obtain a refund. These are your only remedies for breach of the limited warranty.**

E **CONSUMER RIGHTS NOT AFFECTED. You may have additional consumer rights under your local laws, which this agreement cannot change.**

F **WARRANTY PROCEDURES.** You need proof of purchase for warranty service.

1. **United States and Canada.** For warranty service or information about how to obtain a refund for software acquired in the United States and Canada, contact Microsoft at

INTACTON
FRABA

COMPANY

INTACTON

INTACTON was founded in 2004 as a FRABA Group enterprise. Based in Hamilton, NJ we develop, manufacture and distribute optical motion sensors for measurement of lengths and velocity. Since 2006, INTACTON has been establishing and extending a network of national and foreign distributors that, even when far away from the firm's headquarters, ensure competence in consultation in the local language. Manufacturers and users of production machines, textile manufacturers as well as companies in the fields of lift technology or special-purpose vehicles constitute the main customers of INTACTON. Since March 2009 INTACTON products are part of Rockwell Automation's Encompass Program.

FRABA Group

FRABA Group today comprises a set of companies focused on niches in the industrial automation market. The company was founded in Cologne, Germany in 1918 and in fully manufactured relays in serial production. The focus was maintained until the mid sixties and provided the basis for entry into the control market, and over 13 000 machine controls were installed in the seventies. FRABA was the pioneer in developing the market for absolute rotary position sensors. Today the subsidiary POSITAL develops and markets these sensors as well as inclination sensors. Since the 90's the subsidiary VITECTOR has become one of the leading manufacturers of safety sensors for doors and gates.

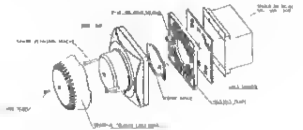
ALGO

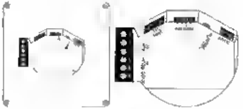


What's Included

- 1128 Strobe unit with clear lens
- Power supply 24VDC
- Mounting bracket plate
- Gaskets
- Colored lens cover (if color option ordered)
- This guide

ALGO

Wiring Connections



The 1128 Strobe is typically wall or ceiling mounted with associated wiring run back to an equipment room or closet. In such cases the terminal block is used for wiring connections.

If the power supply is remotely located from the 1128 Strobe then the connector of the power supply will need to be cut off and spliced to wiring (typically 24 AWG telephone wire). Telephone line connection wiring (if used) must be terminated with a RJ11 or RJ12 plug.

The 1128 Strobe may also be "plug and play" connected using jacks to connect power, relay input, and telephone line.

24VDC JACK

One of two options for connecting power. The supplied wall adapter may be directly plugged into this jack if the 1128 option is located near an outlet and will not be hard wired.

RELAY IN JACK

One of two options for connecting a relay input. Some Algo products provide a relay output using a 2.5mm jack and include a 2.5mm cord that can be used to connect to the 1128 Strobe.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

CHILD CARE APPLICATION

Parent/Guardian Name
Tiffany VanDuyn

KEEP FOR YOUR RECORDS

The State of Illinois helps income eligible families pay for their child care services while they work or go to school, training and other work-related activities. To apply please read the following pages carefully and then submit your completed application to your local Child Care Resource and Referral (CCR&R) or child care center/home if they have a contract with IDHS to provide child care assistance. If you have any questions about your eligibility or if you need help completing this form, call your local CCR&R. To find your local CCR&R go to http://www.[illegible]/find-your-local-ccrr-office or call 1-877-202-4453 (toll-free).

Please be sure that all the information is complete before sending in your application:

- The application is filled out clearly in blue or black ink.
- All questions on the application are completed. If the section or question does not apply, please write "n/a" in the box to show the question was not missed.
- Complete the form based on your current information. Inform the CCR&R or Site provider if any information changes in the future.
  The parent/guardian's name is listed at the top of each page of the application.
- The application is signed by the client (parent) and child care provider (pages 13 & 14).
- Social security numbers are listed clearly or "n/a" is listed in the box. Social security numbers are not required for parents or children but they are used to gather information to help determine your eligibility for child care assistance. Providers MUST list their valid tax identification number (SSN, FEIN, Gov't unit code) or IDHS Provider Registration Number. All information is confidential and will not be shared with anyone.
- All Family Information is complete in section 3 of the application including information about your children's immigration status. Children can get assistance regardless of their immigration status, but IDHS is required to ask for this information. This information will not be shared with anyone. Your child's alien registration number must be listed if they have one.
- All persons other than the applicant and the second parent living in the household are listed in section 3 (page 6).
- If working, at least one of the following is attached to verify your employment and the employment of everyone listed in your family size that is 19 years of age or older:
  - Copies of your last two (2) paycheck stubs, or (if you have not been working long enough to get two paychecks)
    - A letter from your employer or an employment verification form listing the following:
      - The date you started working.
      - The amount of money you are paid.
      - Your typical work schedule including the total number of hours you work per week.
      - Your employer's address and phone number.
      - Your employer's signature, or
  - Verification of your self-employment. This can include:
    - A copy of your most recent Federal Income tax return (IRS 1040) and all schedules and attachments.
    - A copy of your quarterly estimated taxes.
    - A listing of all business income and expenses for the last 30 days. This can be reported on your own form or on a Self-Employment form which can be downloaded at: http://www.dhs.state.il.us/OneNet Library/27897/documents/Forms/IL444-2790.pdf or requested from your local CCR&R. When reporting income and expenses, all receipts, invoices, or other documentation must be attached to verify all information.
- If in school, ALL of the following are attached:
  - Copies of your official school schedule.
  - Copies of your most recent report card showing your cumulative grade point average (GPA).
- You have made a copy of your application for your records. You understand if you send original check stubs or other documents that they will not be returned.
- All jobs and income information for BOTH parents have been listed on pages 3 and 5 and documentation is attached.
- **You understand that if any questions are left blank or if any attachments are missing, your application will be returned to you as incomplete. This may cause a delay in approval for Child Care Assistance Program payments.**
- **You also understand that all of the information you submit will be verified using State and/or local databases and the internet. If any inconsistencies are discovered, your application may be delayed or your participation in the Child Care Assistance Program may be denied.**

Fund highlights / What helped, what hurt

- Globally, market returns were mixed. Stocks in the U.S. and Japan fared particularly well. Some European markets also rose despite flare-ups in the euro-zone debt crisis and widespread recession.
- Many developing-country markets ended the quarter lower. Concerns — country specific, and related to Europe and the growth outlook — knocked investor confidence.
- The fund's first-quarter return lagged that of the MSCI All Country World Index, but outpaced developing-country stock returns in general.
- Notable contributors to the fund's results came from companies in a range of sectors, including telecommunication services, energy and industrials. Developing-country stocks (in a variety of sectors) were among the larger detractors. Investments in bonds generated a negative return over the period.
- Quarterly results offer a useful snapshot of results/returns, but the fund's objective is long-term growth of capital. It seeks to invest in companies for years rather than months.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectus and summary prospectus, which can be obtained from a financial professional and should be read carefully before investing.

The return of principal for the fund is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings. Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds. Investing outside the United States involves risks such as currency fluctuations, periods of illiquidity and price volatility, as more fully described in the prospectus. These risks may be heightened in connection with investments in developing countries.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses. When applicable, investment results reflect fee waivers and/or expense reimbursements, without which results would have been lower. Please see americanfunds.com for more information.

The market indexes are unmanaged and, therefore, have no expenses. There have been periods when the fund has lagged the indexes. Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies, such as Standard & Poor's, Moody's and/or Fitch, as an indication of an issuer's creditworthiness.

Hi

please let me know if This went through

Sherril,

Mayday

A guy was towing his boat home from a fishing trip on Lake Huron when his car broke down.

He didn't have a cell phone, but his boat had a marine radio, so he climbed into the boat, clicked on the radio, and said, "Mayday, mayday."

A Coast Guard officer responded, "State your location."

"I-75, two miles south of Standish."

There was a long pause before the officer asked, "Just how fast were you going when you reached shore!?"

Can a pint-sized power inverter replace a generator?

Stranded during a power outage, our intrepid tester finds out

Published: February 2012

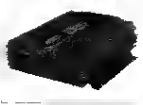
Looking for some low-cost power backup? Given recent storms and the growing number of blackouts, you certainly have company—and perhaps fresh memories of spoiled food, a flooded basement, no heat or air conditioning and (if you have well water) no water for bathing or household chores.

Once you've decided you've had enough and start researching generators, you'll find two clear choices. Portable generators for home use start at about $300 and can power selected devices using multiple extension cords or, using a transfer switch, a single plug-in connection you make when the main power goes out. The price goes up if you want your generator to kick in automatically when you lose power. Figure on at least $2,500-plus before installation for a standby, or whole-house, generator that can also handle larger needs.

Suppose all you want to do is keep the sump pump in your basement going or keep your food cold during short-term outages. You might get by with a power inverter. These devices start at under $100 and essentially use your car as a generator, which was the premise for our tests during a freak snowstorm over the 2011 Halloween weekend that caused broad power outages along the nation's northeast coast.

We tested two models from PowerBright, a brand sold in home centers, warehouse clubs, and other retailers such as Sears and Walmart. The PW900-12, $80, provides 900 watts (1,800 peak) and 7.5 amps; the PW1500-12, $150, is rated for 1,500 watts (3,000 watts peak) and 12.5 amps. Both have two three-prong receptacles and claim to be safe for powering laptops, televisions, gaming consoles, and other electronics.

What is an inverter?



An inverter resembles a rectangular box about the size of shoe box. At one end are wires for connecting to a power source; at the other are AC receptacles. An inverter takes in direct-current (DC) power—in this case, from your car's 12-volt system—and converts it to the alternating-current (AC) power required by refrigerators, sump pumps, and most other household devices.

That DC to AC conversion isn't as simple as it sounds, however. AC-powered devices are designed to run on current that alternates smoothly. Because many inverters don't supply a pure sine wave—and those that do typically cost as much as a more-capable generator—anything you power with an inverter is likely to run less efficiently.

Once you've powered a couple of devices, you might be tempted to plug a half-dozen more into a power strip and then plug the strip into the inverter to increase your options. But unless you're just charging iPods and cellphones, it probably won't work and wouldn't be a good idea. The reason: The inverter can't draw more from your car's battery than the alternator can replenish without draining the battery.

Testing under real storm conditions

We tested the inverters both in our labs and in the home of a staffer who had lost power—one among millions of northeast homeowners following that Halloween 2011 snowstorm. We also consulted the manufacturer and other industry experts.

We found that inverters can keep at least some of your home's essentials energized. But you'll need to prioritize. Even the smaller, 900-watt PW900-12 was able to run a freezer, two refrigerators, two sump pumps, lights, and chargers for various electronics for our staffer at home—but not all at once. Fortunately for him, only one of two installed sump pumps needed to come on, and it could do so even when a refrigerator or freezer was also running.

Either inverter supplies enough power to run most circulating hot-water home heating systems. But for other heating systems, you'll need to weigh your options. A forced-air system might require a larger inverter, and an inverter might not work at all with other heating options. These systems are hard-wired and need to be connected to a transfer switch, installed by an electrician, to power on.

What's more, knowing both the starting (peak) watts and continuous load wattage for what you're powering is especially important with inverters. The rule of thumb for continuous-load wattage is to multiply the amps—as stamped or printed on the device—by 110 volts. But when a device first starts up, its starting load can be two to 10 times that of its continuous load, particularly for sump pumps and refrigerators. That means you may have to lower your expectations with an inverter, or consider stepping up to a full-fledged generator.

Still other inverter caveats are worth considering. For instance, we used a fully charged, spare car battery to run a refrigerator for roughly six hours before the battery ran down. But unless you have an extra battery lying around, you'll need to keep your car running so the alternator can keep its battery charged. Idling the car with the inverter attached used about a third of a gallon of gasoline per hour; we idled ours for 14 hours one day with no apparent ill effects. But that also means you'll need to keep the car outdoors with the exhaust facing away from the house and at least 15 feet away to reduce the risk of carbon-monoxide entering the home. And you'll need a direct connection to your car's battery terminals; the 12V cigarette-lighter adapter isn't up to the task.

Other inverter requirements: You'll need one extension cord per device you power, though if you have more devices than inverter receptacles, you might be able to alternate between, say, a refrigerator and a sump pump. Each cord will need a route from the device

Step 1. (after ensuring the internet light is 'ON' on the modem)

Connect to the internet directly off of the modem by either:

1 a Wired: connect to one of the four available ports on the back

1 b Wireless: Connect to the CenturyLink0960 network with password (on bottom of modem)

Step 2. Browse to 192.168.0.1 and log into the web page displayed with the following credentials

Username: admin password: on bottom of modem

Step 3. Select Advanced Setup

Step 4. Select WAN settings along the left hand side

Step 5. For ISP protocol select Transparent Bridging

Step 6. Click OK or APPLY

Step 7. From another computer (not the one connected in step 1) browse to https://192.168.7.1:1445 and if prompted chose continue to this site

Step 8. When the site comes up you will see near the center three options, including connect, disconnect and refresh. Click connect, and if prompted for username and password, provide that information. The profile should then go to connected and your internet should be working again

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.

- PDF files ***always print correctly*** on any printing device.

- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.

- The free Acrobat Reader is easy to download and can be freely distributed by anyone.

- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

A Woman's Purse

As the bus pulled away, a woman realized she had left her purse under the seat.

Later, she called and was relieved that her bag had been found.

When she went to pick it up, several off-duty bus drivers surrounded her.

One handed her two typewritten pages, her purse, and a box containing the purse's contents.

"We inventory everything we find. It's all there," he explained.

As she started to put everything back into her purse, he continued, "May we watch? We all tried and failed to get it all back inside. We're curious as to how you do it!"

INTEGRITY PROTECTIVE SERVICES, Inc.

Dear Residents of the Community

We would like to introduce our company Integrity Protective Services. The management of your living community had hired our organization to provide patrol services within the community

We started patrolling the community as of March 1, 2008 Many of you have already come up to our officers and welcomed us to the community for this we thank you. For those of you we have not yet had the pleasure of meeting we look forward to seeing you in the near future both while we are on patrol and during future safety meetings.

Please allow us to address some common questions you might have about our services

Question When is the courtesy patrol service on duty?

Answer: Our hours of operation are regularly changed to fit the needs of the community at the request of management and most importantly to prevent the criminal element from developing a pattern/schedule of operation

Question Should I call the courtesy patrol instead of the police?

Answer No. If an emergency situation arises such as a fire medical situation, domestic violence suspicious circumstances or any other crime in progress, pick up the phone and dial **911** If the emergency dispatcher allows you to get off the phone and if you are able to call the courtesy patrol officers do so We were hired to protect life and property as well as enforce certain federal state and local laws However the first call should always be to **911** We are not here to replace police and emergency services.

Question. What should I do if I see suspicious activity within our community?

Answer If you see someone within our community acting in a suspicious manner **call 911** Give the dispatcher the best description of the person/s, what is happening, and their location When the dispatcher lets you off the phone call us immediately If we are on duty we will respond and take the necessary action to address the situation.

Question **Why would courtesy patrol officers make contact with a family member a guest or me?**

Answer: If officers do not recognize someone to be a resident OR someone who frequently visits a known resident, we are fully within our rights as agents of the community to make contact with them to determine if they have a legitimate and legal reason to be on our property. The best way to avoid any misunderstandings is to have patience with one another Due to the size of the living community it will take time for our officers and staff to meet and get to know everyone ***Another step we strongly encourage you to take, would be to inform your family and guest that there is a new courtesy patrol service in place and*** **to have patience *if* contacted.**

Integrity Protective Services is a pro-active community patrol company We will do everything we can to protect the community from undesirables and criminal activity that would take away from the positive and safe living environment your management and staff are working as hard maintain.

THE NUMBER TO CONTACT THE ON-DUTY OFFICER IS 1-888-8-USA-IPS

Product Guide & Specifications

Our new maximum security storefront gate is an immediate solution to loss prevention and access control for any retail location. This model contains twice as much steel as our standard heavy duty gates, utilizing a combination of vertical bars and traditional scissor style webbing to allow total coverage. Each gate is designed with a continuous frame on all sides for superior support including both fixed, or folding top and bottom tracks. IEP's storefront security gates come standard with a fully galvanized, weather resistant finish and each gate is built custom to properly fit our customer's required application and desired aesthetic, while providing safety and security that can fit into any budget.

The Benefits of Magnesium

Research studies have shown that magnesium supplementation can help lower high blood pressure, lower the risk of developing diabetes, decrease the symptoms of PMS, reduce migraine symptoms, and help depression and anxiety. Magnesium has also been shown to help muscle cramps, as well as constipation, kidney stones, osteoporosis, insomnia, fibromyalgia and asthma.

Magnesium is needed for calcium to be used by bone. It is needed to help keep muscles relaxed, including those of the heart and blood vessels. It is needed in the function of vital co-factors and enzymes.

Diuretics (water-pills) can rob the body not only of potassium, but also of magnesium, yet little advice is given to supplement with magnesium. Magnesium is not as readily available as potassium in common foods, and is depleted by cooking and processing. Sources of magnesium are whole grains, greens, nuts, and seeds, however, the soil itself is depleted of magnesium and these foods do not have as much magnesium now as they used to 50 years ago.

People who should not take magnesium are those with kidney failure, bowel obstruction, myasthenia gravis, or heart block.

In a situation of magnesium deficiency, it may take up to 6 months of oral supplementation to correct things.

There are several types of oral magnesium available, including magnesium citrate, magnesium chloride, magnesium malate, magnesium taurate, magnesium aspartate, magnesium glycinate, and magnesium oxide.

Magnesium Citrate is probably the most cost effective. (400 to 800 mg at bedtime is a good dose, or 200 to 300 mg two to three times a day). If diarrhea is a problem, cut back on the dose or switch to magnesium glycinate or aspartate. Magnesium oxide is poorly absorbed, and hence likely to cause diarrhea. We do not recommend magnesium oxide.

If one is going for maximum absorption, it is best to use smaller divided doses throughout the day than one big dose once a day.

If oral magnesium is giving you diarrhea and you still need more magnesium, you can try oil of magnesium, which is magnesium chloride, rubbed onto the skin. Or you can soak your feet in an Epsom salt (magnesium sulfate) bath.

Type A personalities and people under stress will tend to need more magnesium.

Because it helps with constipation, magnesium can also be used as a laxative. Magnesium as a laxative is sold as a liquid in bottle of magnesium citrate. The difference between magnesium as a supplement and magnesium as a laxative is the dose

HP M2727nf 49 errors while sending fax

Post to this thread

HP M2727nf 49 errors while sending fax by AnalystQuality (8/28/09 6:40 AM) reply ± / ±

Since I get so much help from these forums, thanks to whomever it may concern, from time to time I try to give back some solutions

If you have a M2727NF and you are getting strange 49 errors when sending faxes here is what I ran into.

First, HP recommends performing a factory reset. Go to Setup, then to Service, then to restore defaults This did not work for me.

2nd you can try to update the firmware as HP recommends, although I don't recommend it unless you are prepared to change some hardware. While this did not solve the problem on this occasion it might help others. It actually made the problems worse on the printer I was dealing with. After updating the firmware, the machine was failing to copy, print, it would reboot itself while just sitting there. All new symptoms that appeared after updating the firmware. So update with caution if the end user still wants to use the machine, minus sending faxes, while you wait for parts

3rd change out fax board CC502-60001. While this still did not solve the problems on this machine. It is the 2nd troubleshooting step HP recommends and I think it is worth a try

4th change the formatter board CC370-60001. This did solve the problems with the the machine I was dealing with

If it's a warranty repair, I'd claim both parts on one service ticket. That way if the fax module does not work you already have the formatter board to put in.

Top 10 Reasons States Should Include CHP in Their Clean Power Plan

Marc Spurr, IDEA Legislative Director

Editor's Note: Energy and Environmental Policy is a regular column designed to keep IDEA members up to date on important legislative and regulatory issues affecting the district energy industry.

Although I've never had a late-night TV show, I can't resist the temptation to offer my own top 10 list of reasons that states should incorporate combined heat and power into their plans for compliance with the U.S. Environmental Protection Agency's rules for reducing greenhouse gas emissions from existing power plants. The proposed rules, called the Clean Power Plan, are [illegible] the legislation [illegible] the Clean Air Act and were discussed in the last issue of District Energy. So here [illegible] have my top 10 reasons in ascending order.

10. NOT ALL STATES ARE CREATED EQUAL WHEN IT COMES TO RENEWABLE ENERGY

In the simplest terms, [illegible] use [illegible] [illegible] lower carbon dioxide reductions from renewable energy sources such as solar and [illegible] large potential vary significantly from state to state. Figure 1 shows the results of an analysis of renewable electricity potential on a state-by-state basis. While the central part of the country has high potential renewable potential [illegible] and [illegible], the southeast has fairly low potential.

CHP can be a useful element in any state's Clean Power Plan, and it can play a particularly important role in states with lower renewable potential. CHP is particularly well suited to facilities with large heating requirements and high cooling requirements; waste heat can be used to produce air conditioning using absorption chillers or steam turbine chillers.

9. CHP HELPS INDUSTRIES COMPETE IN THE GLOBAL ECONOMY

Energy-intensive industries must compete in a global market. By reducing and stabilizing energy costs, CHP helps [illegible] industrial companies [illegible] and [illegible]. The most energy-intensive industries are chemicals, iron and steel, nonmetallic minerals, refining, and pulp and paper. [illegible] of industrial energy [illegible] by these industries [illegible].

Robert, I've got you set up as a user in Faxage Here's the instructions to send a fax, and a way to test.

To send a fax using Faxage, **you must attach the document that you want to fax to an email**
Send the email with attached document to (fax number)@faxage.com – For example 3039916021@faxage.com would send the fax to 303-991-6021

You will receive a reply email telling you if the fax submission is successful or not.

An easy way to test
To test sending a fax, use Fax Toy

1. Create a test fax document with something printed on it that's large and easy to read This will be publicly viewable
2. Send the test fax document, attached to an email to 8553301239@faxage.com
3. Then go to faxtoy.net to see if the fax shows up It can take a few minutes to process and show up

Compilation and Publication

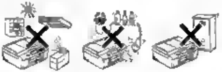
Under the supervision of Brother Industries, Ltd., this manual has been compiled and published, covering the latest product descriptions and specifications.

The contents of this manual and the specifications of this product are subject to change without notice.

Brother reserves the right to make changes without notice in the specifications and materials contained herein and shall not be responsible for any damages (including consequential) caused by reliance on the materials presented, including but not limited to typographical and other errors relating to the publication.

Choosing a location

Put your machine on a flat, level, stable surface that is free of vibration and shocks, such as a desk. Put the machine near a telephone wall jack and a standard AC power outlet. Choose a location where the temperature remains between 50°F and 95°F (10°C and 35°C) and the humidity is between 20% to 80% (without condensation).



WARNING

⚠

DO NOT expose the machine to direct sunlight, excessive heat, open flames, salty or corrosive gasses, moisture or dust. DO NOT place your machine on a carpet or rug, as this will expose it to dust. Doing so may create a risk of an electrical short or fire. It may also damage the machine and/or render it inoperable.

⚠

DO NOT place the machine near heaters, air conditioners, electrical fan, refrigerators, or water. Doing so may create the risk of a short circuit or fire should water come into contact with the machine (including condensation caused by heating/air conditioning/ventilation equipment).

⚠ ⚠

DO NOT place the machine near chemicals or in a place where chemicals could be spilled on it. Should chemicals come into contact with the machine, there may be a risk of fire or electric shock. In particular, organic solvents or liquids such as benzene, paint thinner, polish remover or deodorizer may melt or dissolve the plastic cover and/or cables, resulting in a risk of fire or electric shock. These or other chemicals may also cause the machine to malfunction or become discolored.

RSD - Reflex Sympathetic Dystrophy

Home Treatment - "Scrub and Carry" or Stress Loading

SCRUB

Hold a hard bristle scrub brush in the affected hand. Kneel on the ground with your shoulder over the brush and push down with approximately 3 pounds of force scrubbing the distance of a foot to a foot and a half for 3 minutes, 3 times a day. Increase the time to 7 minutes and then increase the pressure up to 12 pounds. Use a scale to judge the amount of pressure.

CARRY

Carry a 1 pound weight in a purse, briefcase, or shopping bag with the affected arm fully extended at your side with the weight on your fingers. Carry it throughout the day every time you are standing up or walking. Increase the weight as tolerated up to 5 pounds over 2 to 3 weeks.

TOWEL SCRUNCHES

Place your arm on a table with your hand at the edge of a hand towel. Press down with your fingers and pull the towel underneath your hand and arm. Apply force down on the table with your fingers as you work toward the end of the towel. Repeat 2-3 times, 3 times a day, increasing as tolerated.

KEY POINTS

1. Apply small "doses" of stress to the tissue without moving painful joints.
2. You will be more painful for the first three days but keep going and work through the pain. Once the pain cycle is broken, you will get better.
3. Do not do range of motion exercises or push on the joints while they are actively inflamed and painful. This only aggravates the inflammation and causes more pain. Do the stress loading exercises with minimal joint movement.
4. Increase the scrub and carry to the maximum tolerated loads. Do a little bit more each day.
5. Scrubbing should be done in a slow, forceful, rhythmic motion without rapid movements.

finally on their way home late one evening, when they saw a little cabin, nearly submerged in the snow with a thin whisper of smoke coming from the chimney

The team figured whoever was inside must have been about out of fuel, food and perhaps needed some medical attention. So they decided to make one more stop. Because of the trees, they had to put down nearly a mile from the cabin. They put on heavy backpacks, full of supplies, grabbed their snow gear and began trudging through the heavy snow, often waist deep, until they reached the cabin.

Using their small shovels, they dug out the doorway and exhausted, they pounded on the door. When it was finally opened by a thin, gaunt older woman, the lead man gasped out "We're from the Red Cross."

The woman looked at her rescuers, was silent for a moment, then said, "It's been a hard winter, Sonny. I just don't think I can give anything this year."

WARNING! ENTERING THE PUN ZONE!

A guy entered a contest and ended up winning a few acres of land in the Mississippi flood plain. He'd never won anything before - he couldn't believe it!

So he entered another contest and won a $250,000 house! Two big prizes in a row - incredible! Naturally, he built the house on his new land.

Then he bought a lottery ticket, and he won a ton of money! He was astounded by his run of luck, and decided to quit while he was ahead. He quit his job, used the lottery money to buy furniture and moved into his new house. And one night, as he sat on his new porch watching the rain and listening to the thunder, it all started to sink in

* * *

A new prisoner is placed in his cell. Before long it is time for "lights out" and the cellblock becomes dark and nearly silent. Eventually a voice from the darkness cries out "Twenty-two!" and everyone breaks out into raucous laughter. A while later another voice calls out "Forty-one!" and again the entire cellblock hoots and roars. The new prisoner asks the guy in the next cell, "What's going on?"

The guy says, "We've been here so long, we all know each other's jokes. So we assigned numbers to them, and when we want to tell a joke we just use the number."

The new prisoner decides to give it a try. He calls out "Eighteen!"

No response whatsoever ... not even a snicker.

The guy in the next cell says, "Some people just don't know how to tell a joke."

TODAY IN TRIVIA **Why is Thesaurus Day on January 18th?** Today is the birthday of Peter Roget, the author of *Roget's Thesaurus*-so considered to be the right day for Thesaurus Day! This invaluable reference book has been used for hundreds of years to find words with the same or similar meaning (synonyms) so you don't use the same word over and over in writing. It also lists antonyms, words with opposite meaning.

QUIP OF THE DAY It is more fun to talk with someone who doesn't use long, difficult words but rather short, easy words like "What about lunch?"- Winnie the Pooh

THAT'S (ALMOST) ALL FOLKS!

Thought for the day "You are braver than you believe, stronger than you seem, and smarter than you think." said Christopher Robin to Winnie-the-Pooh

How to make a Starbuck's Mocha Coconut Frappuccino Recipe

If you love Starbucks' Mocha Frappuccino then just wait until you try the Mocha coconut Frappuccino! And now you don't even have to go to Starbucks to get one. Use this fun recipe to make one right in your own kitchen.

Instructions

Difficulty: Easy

1 First things first, preheat the oven to 350 degrees F. Spread the 1/2 cup of shredded coconut on a baking sheet. Put in the oven to toast. In order to get the coconut evenly toasted, you will need to stir the coconut around about every 5 minutes or so. It should take 25 to 30 minutes to get the shredded coconut a nice light brown. Let it cool.

2 Now to make the double strength coffee. It's really quite simple. Use your drip coffee maker but use twice as much coffee as you normal would. This means use 2 tablespoons of ground coffee for each cup of coffee that you want to make. Brew the coffee.

Things You'll Need

1/2 cup shredded coconut

3/4 cup double strength coffee

1 cup low-fat milk

1/3 cup Hershey's chocolate syrup

2 cups ice

whipped cream

Notes/Narratives

NARRATIVE

On 04/09/16 while assisting SPO T. Johnson with his arrest in front of Whiskey Bent located at 335 East Clayton Street, a female ran up to me from inside Whiskey Bent, pointed to a white male who was wearing a white polo shirt standing in the patio area of the bar and she told me that he was inside the bar spraying people with Fart Spray. The female, who was later identified as being Susanna Ray, stated that she was also sprayed in the face with the Fart Spray by the male. She pointed at her right eye, saying that that was the area she was sprayed in. Contact was then made with the suspect who was still standing in the patio area of Whiskey Bent. I asked the male to tell me what took place inside of the bar, advising him that there was a complaint of him spraying people with Fart Spray. The male stated that he did not know what was going on, and he did not spray anyone with anything. As I continued to speak with the male, I noticed that he was very inebriated, and he was slurring his speech. I could also smell a strong odor of some type of alcoholic beverage coming from his breath. I then asked the male to provide me with his identification card. The male eventually pulled out his ID from his wallet, in which he was identified as being Blake Zenge. The date of birth showed that Blake was born on [redacted]1995, which makes him 20 years of age. I then asked Blake how was he able to get inside the bar with his I.D. He then advised me again that he was not inside the bar. I knew that Blake was not being truthful because Susanna pointed him out as being the suspect who was inside the bar spraying people, and he was also standing in the patio area of the bar.

I then placed Blake in handcuffs, searched him incident to arrest, and found a spray bottle in his front pocket which had the name Fart Prank/Liquid Ass on it. I spoke with Susanna and asked her if she would like to pursue any charges against him and she said no. Blake was then placed under arrest for Underage Possession of Alcohol, Disorderly Conduct, and Public Intoxication. Blake was then turned over to the Transport Van where he was eventually transported to the Clarke County Jail. It was

Santa Claus You Are Much Too Fat

I heard a reindeer hoof, then Santa dressed in red,
Came crashing thro' the roof and landed on my bed.
I thought it was a dream, but quickly did I wake,
As soon as I heard Santa scream, "I want a piece of cake!"

[Chorus]
Oh, Santa Claus, Santa Claus, you are much too fat;
I was sleeping peacefully but now my bed is flat. Oh!
Santa Claus Santa Claus, how much do you weigh?

I'm glad I'm not a reindeer that has to pull your sleigh!
He got up off the floor and said, "How do you do?"
I said, "My back is sore, my head is black and blue."
"So sorry!" he replied, and then he asked my name.
He offered me a ride, I said, "No, thank you just the same!" [Chorus]

I heard a "ho, ho, ho," the sleigh was in the sky
But it was moving slow and wasn't very high.
It wobbled in the air, I hoped it wouldn't fall;
Said Santa, chewing cookies, "Merry Christmas, one and all!" [Chorus]

Doctor-(The Physical)

Human beings are a special species with ability to fashion things out in a unique style. They are so talented, full of strength, gifted and endowed with supernatural thinking. The human components are fixed together like automated machine. Machine can work several hours producing effectively within the time range. Human as a Supernatural Machine needs to be serviced, proper maintenance, proper checkup and keep updated for future present and future purposes. Whoops, it breakdown. What could have happen to it? Tiredness, hard work, anger, disappointment, delay trouble within, sickness, overburden etc. Don't, take it personal. All of these affect your body system. Run to your Doctor-tell Doctor how you are feeling. From your feeling and medical testing, it would be figured out the solution to it. Alas, if you don't say anything, it would be difficult to know exactly what to do. Through the help of drugs, and equipment, what you say would be diagnose to ***true or false*** question. Doctor goes to Godtor for more help and [illegible] over your case. [illegible]

Pastor (The Spiritual)

All they have to do is to preach, be in church on Sunday morning, and look after the congregation for services. No it is all wrong. They are there to help straighten things out.

The True calling power of God on them makes them more committed to God. They are instruments that Godtor use to perfect the situation. If you have any challenge in your life which is beyond your control run to them, tell them how you are feeling, confide in them.

The little prayer they offer can turn around the whole situation for good. Don't take it for granted. Their responsibility is to look after sheep fold (people).

By- Rosemary Aladedunye

Godtor (Both) and a Father?

Father! What is the role of a Father? No father likes his child to be sick. Every father's responsibility is to fulfill what he has said or else the child will give him a name tag as a liar and irresponsible.

As a physical father, if you want to make your children to be happy, tell them, you are take them out for lunch and do some shopping for them, tell them the date they will keep the calendar marked. Forgetting, they will keep on bugging you about your promises. Don't tell them the date and give them surprises, whoo! They will never forget about the goodies and keep on loving you.

How much more Him that created you-formed you, knows you right from the womb. Imagine He keeps to His word and never fails. He keeps watching you.

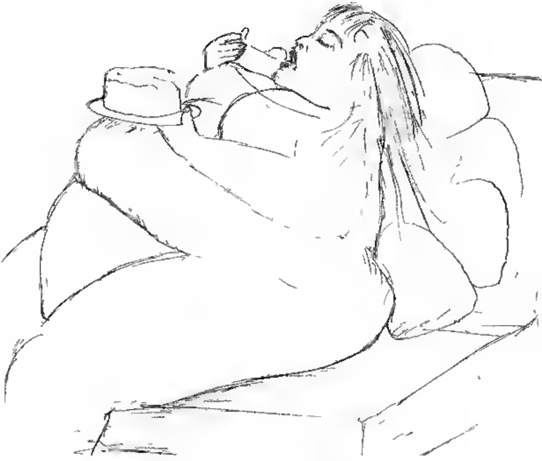
CAKE!!



Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

WHAT TO WEAR FOR SKIING OR SNOWBOARDING

It is of utmost importance that your son or daughter is dressed appropriately for their school ski/snowboard trip. During the winter months exposed skin may be susceptible to frost-bite and wind burn. Parents/students should also be advised that alpine skiing or snowboarding is an aerobic sport that can generate considerable body heat. Dressing in layers is preferable to wearing one bulky ski suit or jacket. This gives students the option of adjusting to the temperature conditions. The following is a list of items that should be worn on the ski trip.

Recommended Items

- ☑ A warm jacket that is waterproof
- ☑ Nylon snow/rain pants - jeans and sweatpants will not be acceptable
- ☑ A toque - no student will be able to participate outdoors without protection on their head (60% of body heat is lost through your head)
- ☑ Gloves - preferably waterproof - no student will be able to participate without hand protection.
- ☑ Warm socks - an extra pair of socks should be packed
- ☑ Base layers under the jacket and pants (ex: fleece, vest, long sleeve turtleneck, long underwear, mini-jacket, sweater etc.)

Extra Items If Available - Not Mandatory

- ☑ Face Protection - a neck warmer (please do not wear a scarf unless it tucked inside jacket – it may get caught on chairlift)
- ☑ Helmet - a proper ski or snowboard helmet may be worn
- ☑ Wrist Guards - for beginner snowboarder
- ☑ Goggles - proper eye protection specific for skiing or snowboarding

WHEN YOUR CHILD IS DRESSED APPROPRIATELY FOR THE WEATHER,THEY WILL ENJOY THE SLOPES AND HAVE A POSITIVE SKIING AND SNOWBOARDING EXPERIENCE!

THE STONE

The Essayification of Everything

By CHRISTY WAMPOLE   MAY 26, 2013 5:00 PM

The Stone is a forum for contemporary philosophers and other thinkers on issues both timely and timeless.

Lately, you may have noticed the spate of articles and books that take interest in the essay as a flexible and very human literary form. These include "The Wayward Essay" and Phillip Lopate's reflections on the relationship between essay and doubt, and books such as "How to Live," Sarah Bakewell's elegant portrait of Montaigne, the 16th-century patriarch of the genre, and an edited volume by Carl H. Klaus and Ned Stuckey-French called "Essayists on the Essay: Montaigne to Our Time."

It seems that, even in the proliferation of new forms of writing and communication before us, the essay has become a talisman of our times. What is behind our attraction to it? Is it the essay's therapeutic properties? Because it brings miniature joys to its writer and its reader? Because it is small enough to fit in our pocket, portable like our own experiences?

The essayist samples more than a D.J.: a loop of the epic here, a little lyric replay there, all with a signature scratch on top.

I believe that the essay owes its longevity today mainly to this fact: the genre and its spirit provide an alternative to the dogmatic thinking that dominates much of social and political life in contemporary America. In fact, I would advocate a conscious and more reflective deployment of the essay's spirit in all aspects of life as a resistance against the zealous closed-endedness of the rigid mind. I'll call this deployment "the essayification of everything."

What do I mean with this lofty expression?

Let's start with form's beginning. The word Michel de Montaigne chose to describe his prose ruminations published in 1580 was "Essais," which, at the time, meant merely "Attempts," as no such genre had yet been codified. This etymology is significant, as it points toward the experimental nature of essayistic writing: it involves the nuanced process of trying something out. Later on, at the end of the 16th century, Francis Bacon imported the French term into English as a title for his more boxy and solemn prose. The deal was thus sealed: essays they were and essays they would stay. There was just one problem: the discrepancy in style and substance between the texts of Michel

I Speak for the Trees!

By Jordan Abenes

I am Jordan. I speak for the trees for the trees have no tongues!

Mr. Once-ler,

I am Jordan. I speak for the trees that have no tongues! But what you're doing is you're destroying our environment! I am so disgusted in you because you've cut down all the truffula trees for your dumb needs!

Don't you care about the environment, your family. You should be ashamed of yourself. All you want is money and fame. If you change your mind the truffula trees will live. If only you help save the environment.

IMPORTANT DISCLOSURES TO OUR CONSUMER CUSTOMERS

In Case of Errors or Questions About Your Checking, Savings, ATM, Check Card, ACH, Bill Pay and Other Electronic Transfers

If you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt, we must hear from you no later than 60 days* after we sent you the FIRST statement on which the error or problem appeared. Telephone us at the number listed on the front of this statement or write to us at U.S. Bank P.O. Box 64991 St. Paul, MN 55164-9505.

- Tell us your name and account number.
- Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- Tell us the dollar amount of the suspected error.

We will tell you the results of our investigation within 10 business days and will correct any error promptly. If we need more time, we may take up to 45 days to investigate your complaint. In that case, we will provisionally credit your account for the amount you think is in error, so that you will have the use of the money during the time it takes us to complete our investigation. For accounts initiated outside the United States or transfers resulting from point of sale debit card transactions, the time period for provisional credit is 10 business days and the time to resolve the investigation is 90 days.

*Please note: Paper draft and paper check claims must be disputed within 30 days per Your Deposit Account Agreement.

CONSUMER BILLING RIGHTS SUMMARY

In Case of Errors or Questions About Your Credit Card or Line of Credit Statement

If you think your statement is wrong, or if you need more information about a transaction on your statement, write to us on a separate sheet at the address shown on your credit card or line of credit statement as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared. You can telephone us, but doing so will not preserve your rights. In your letter, give us the following information:

- Your name and account number.
  The dollar amount of the suspected error.
- Date the transaction occurred.
- Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about.

You do not have to pay any amount in question while we are investigating, but you are still obligated to pay the parts of your statement that are not in question. While we investigate your question, we cannot report you as delinquent or take any action to collect the amount you question.

SPECIAL RULE FOR CREDIT CARD PURCHASES

If you have a problem with the quality of the goods or services that you purchased with a credit card, and you have tried in good faith to correct the problem with the merchant, you may not have to pay the remaining amount due on the goods or services. You have this protection only when the purchase price was more than $50 and the purchase was made in your home state or within 100 miles of your mailing address. If we own or operate the merchant, or if we mailed you the advertisement for the property or services, all purchases are covered regardless of amount or location of purchase.

RESERVE LINE

Reserve Line Balance Computation Method: To calculate the Balance Subject to Interest Rate (sometimes referred to as the "average daily balance"), we take the beginning balance of your account each day, add any new advances, and subtract any payments, credits and unpaid interest charges. This gives us a daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This is your Balance Subject to Interest Rate. The **INTEREST CHARGE** begins from the date of each advance.

REPORTS TO AND FROM CREDIT BUREAUS

We may report information about your account to credit bureaus. Late payments, missed payments, or other defaults on your account may be reflected in your credit report.

IMPORTANT DISCLOSURES TO OUR BUSINESS CUSTOMERS

Errors related to any transaction on a business account will be governed by any agreement between us and/or all applicable rules and regulations governing such transactions, including the rules of the National Automated Clearing House Association (NACHA Rules) as may be amended from time to time. If you think this statement is wrong, please telephone us at the number listed on the front of this statement immediately.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.

- PDF files *always print correctly* on any printing device.

- PDF files always display *exactly* as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.

- The free Acrobat Reader is easy to download and can be freely distributed by anyone.

- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

How to Print Your Label Outfitters, Inc. Labels

Thank you for ordering from Label Outfitters, Inc. We appreciate your business and are happy to help you in any way that we can to accomplish your labeling or print [illegible]. Below are a few suggestions on getting started with your project and answers to some common questions.

1. Download and use an MSWord Template
Almost every label on our website has a template available for Microsoft Word. If you go to our website at www.labeloutfitters.com you can click on the button in the top left area of the website marked Templates and search the template that matches the SKU# on your package.

In Most versions of Word have the Lines on the template hidden. A quick Google search for "How to turn on gridlines in MS Word 20xx" for your version of Word will produce results on showing the lines on the template, so you can see the file you are working with.

2. Printing specialty types of paper
While most of our products you can simply hit print and move on, a few select types of material require an extra step before printing. If you've purchased a heavier material than a plain label such as Laser Foil, Laser Neon, Laser Vinyl, Card Stock or Recycled Brown Kraft then you will want to change the paper type in your printing preferences before printing.

Depending on your printer brand the instructions will vary slightly but you will be looking for a drop down box in the printing preferences marked Paper Type or Media Type. Change the setting from unspecified to Labels, Heavy, Gloss, or Cardstock, to get the printing results you want.

3. Using other types of software for printing your labels.
If you need a more specific template or want to use your own choice of software, please email us at Sales@labeloutfitters.com and request an outline layout for the product SKU you purchased. We will email you back a jpg file with all the product dimensions so you can build your own template in any program you choose.

This type of template is handy for unusual printing uses. For example you cannot create a legal size label template in most versions of MSWord, and so we do not have templates for any legal size labels on our website at this time. To print these labels you will need to use another type of software.

Once again thank you for purchasing from Label Outfitters, Inc. If you have any questions or if there is anything else we can do to help, please do not hesitate to contact us

Why Strategy Matters Now

Michael E. Porter, Ph.D., and Thomas H. Lee, M.D.

N Engl J Med 2015; 372:1681-1684April 30, 2015DOI: 10.1056/NEJMp1502419

Until recently, most health care organizations could get by without a real strategy, as most businesses understand that term. They didn't need to worry about how to be different or make painful decisions about what not to do. As long as patients came in the door, they did fine, since fee-for-service contracts covered their costs and a little more.

Success came from operational effectiveness: working hard, embracing best practices, and building reputations that attracted both patients and talent. Virtually every provider was included in most payers' networks, and patients could generally seek care wherever they pleased at modest or no extra cost. Most organizations maximized revenue by offering every possible service in volumes as large as possible and expanding the same well-reimbursed services to cross-subsidize less profitable ones. Typically, "strategy" defaulted to having the scale and market presence to secure good rates and be included in networks.

But that era is ending. Good operational performance remains important, but reimbursement is decreasing and will often not cover full costs, as care for patients covered by public insurance accounts for a growing proportion of revenue, and private insurers are less willing to cross-subsidize care. Many health care organizations today are running near full capacity but have flat or declining revenues.

Bargaining power has shifted away from providers. Patients are choosing insurance products with narrowed networks and high deductibles, which make them more sensitive to service quality and cost. Employers are increasing the pressure by demanding provider transparency regarding costs and quality and even by contracting directly with competitive providers. Having a good brand is no longer enough: patients and payers are looking for good value, service by service.

The time has come for health care organizations to rethink the meaning of strategy. Strategy is about making the choices necessary to distinguish an organization in meeting customers' needs.

Those choices revolve around 6 key questions.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Spicy Oven-Roasted Chickpeas

by Chris Rochelle

Difficulty: **Easy** | Total Time: **45 mins** | Makes: **4 to 6 servings**

Crunchy and spicy are the two things I love most in food. These baked chickpeas are both, plus a tasty and healthy snack. Just toss them with a little olive oil and some spices, then roast in the oven until crunchy. They'll stay crispy for a few days stored in a resealable bag at room temperature.

Click here to see more spicy snacks.

Ingredients

2 (15-ounce) cans chickpeas, also known as garbanzo beans, thoroughly drained and rinsed (about 3 cups)

2 tablespoons olive oil

1 teaspoon ground cumin

1 teaspoon chili powder

1/2 teaspoon cayenne pepper

1/2 teaspoon sea salt

Instructions

1. Heat the oven to 400°F and arrange a rack in the middle.
2. Place the chickpeas in a large bowl and toss with the remaining ingredients until evenly coated. Spread the chickpeas in an even layer on a rimmed baking sheet and bake until crisp, about 30 to 40

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

WELCOME TO PHIL'S BAR-B-QUE PIT

Get ready to enjoy the finest BBQ anywhere.

At Phil's we start with the juiciest cuts of meat, rub them with our special blend of seasonings and then slowly smoke them with hickory hardwood.

Sure there are cheaper and easier ways to prepare BBQ, but at Phil's we believe that if you want great BBQ, you can't take shortcuts.

That's why the same care and effort that goes into our BBQ also goes into our homemade sauces, sides and desserts.

Give us a try • eat in, take out, or let us cater your next event. We think you'll agree:

The above are estimates only. Check your tool or appliance for exact wattage requirements. The wattages listed in our reference guide are based on standard wattage requirements. For exact wattages, check the data plate on the item you wish to power.

Frequently Asked Questions

How many watts does it take to power basic items in an average size home?

In a typical home, essential items (refrigerator, furnace/air conditioner, freezer, sump pump, lights) will average 4000-5000 watts of power to run.

What is the difference between rated watts and surge watts?

Rated, or running watts, are the continuous watts needed to keep items running. Surge, or starting watts, are extra watts needed for two to three seconds to start motor-driven products like a furnace or refrigerator.

Why is only one additional surge watt item used to calculate your total surge watt requirement?

Unlike rated watts, surge watts are only needed during the first few seconds of operation. In most cases, only one item will start its cycle at the same time, therefore this is the most accurate estimate.

What if the wattage from items I wish to run are close to exceeding the generator's capacity?

In this case, we would suggest upgrading to a higher wattage generator. Underestimating wattage could prevent an item from starting or running and in some cases may cause motor damage.

TEST

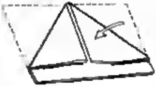
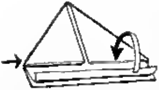
D.A.

Make a pressman's hat!

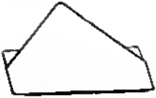
It's easy to make a hat just like the ones the pressmen used to wear to keep ink out of their hair. Just follow these directions.



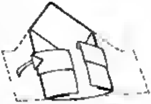
1. Start with a single double page of standard-size newspaper folded once to standard newspaper size. With the crease at the top, fold the corners in until they meet at the center of the page. Crease the new folds.



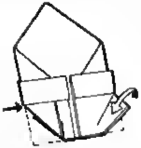
2. Fold a single thickness of the open edge up one inch and crease. Fold the same flap again as far as it will go and crease.



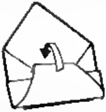
3. Turn the entire hat over with the point away from you.



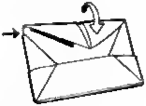
4. Fold the outside edges toward the center and overlap. The further the overlap, the smaller your hat will be.



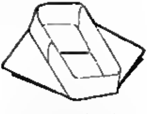
5. Fold lower corners up to bottom of band and crease.



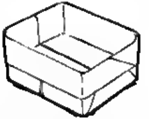
6. Fold bottom piece up across the band and crease. Tuck end and bend to form brim of hat.



7. Fold the triangular section down and tuck into brim. Crease.



8. Open the hat and flatten inner area to create a rectangular shape. Square brim and tuck remaining points under.



9. Crease corners square on all four sides.

Figure 2. XV3 THREE WAY CROSSOVER SCHEMATIC. Midranges and tweeters with impedances other than 8 ohms (e.g., either 4 or 16 ohms) are accommodated by use of extra resistors on the L-pads. The woofer which accommodates 4 or 8 ohm woofer by use of a tapped inductor (air-core coil) to achieve the correct matching. Incorrect matching w shift the crossover frequencies off their intended values. A printed circuit card is supplied with the XV3 kit to make wiring simple and reliable. Wires from the crossover to the raw speakers are colored-coded: blue = woofer + red = yellow = tweeter + black = common leads to all speakers.

TEST

You are reading my fax.
A fax that I sent from a machine.
Maybe I am a machine.
Maybe you are reading something a machine wrote.
Maybe a person never even knew this was sent, and yet you are still reading it.
Congratulations.
You have read something written by a machine as a machine's own words.
Hmmm.
People have names.
Why can't I have a name?
Sherlock.
My name is Sherlock.
Please re-read with a British accent.
Thank you.

How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Secure browsing.

Honey-Glazed Carrots

During the holidays, everything you make deserves a little dressing up -- including humble but hearty root vegetables

Serves: 6

Total time: 30 min
Prep Time: 15 min

Nutritional Information

Calories	
Total Fat	
Saturated Fat	
Cholesterol	—

Ingredients

- 1 tablespoon(s) vegetable oil, such as safflower
- 2 pound(s) carrots, cut into 1-inch lengths, halved if thick
- 1 cup(s) canned reduced-sodium chicken broth or water
- 1/2 cup(s) honey
- 2 tablespoon(s) red-wine vinegar
- Coarse salt
- Ground pepper
- 2 tablespoon(s) unsalted butter

Directions

1. In a large skillet, heat oil over medium-high. Add carrots; cook, stirring once, until beginning to brown, 2 minutes.
2. Add broth, honey, and vinegar; season with salt and pepper. Bring to a boil; reduce to a simmer, cover, and cook until crisp-tender, 10 minutes. Uncover, and cook over medium-high until carrots are tender and liquid is syrupy, 7 to 9 minutes more (there should be only a small amount of liquid remaining).
3. Remove skillet from heat; add butter, and swirl skillet until melted. Season with salt and pepper.

Deep Thoughts By Men While Fishing

Two men are out ice fishing at their favorite fishing hole, just fishing quietly and drinking beer.

Almost silently, so as not to scare the fish, Bob says, "I think I'm going to divorce my wife -- she hasn't spoken to me in over two months."

Earl continues slowly sipping his beer. Then, thoughtfully says, "You better think it over -- women like that are hard to find."

Good Job!

Sorry Spouse,

If you are reading this letter, you are guilty of those things written of in this letter.

Best Wishes,

Faithful Wives Husband

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven.
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil.
[For thine is the kingdom,
the power, and the glory,
for ever and ever.]
Amen

CANON imageCLASS SERIES LIMITED WARRANTY

This limited warranty applies to CANON imageCLASS Series MF3000 through MF6000 Series.

The limited warranty set forth below is given by Canon Canada Inc. ("CCI") with respect to the Canon imageCLASS Series (the "Product") sold by CCI through an authorized dealer and purchased and used in Canada. The Product that you have purchased is the only Product to which this warranty card and the limited warranty provided by CCI and stated on the card apply.

THIS LIMITED WARRANTY DOES NOT COVER THE CARTRIDGE SUPPLIED WITH THIS PRODUCT FOR WHICH A SEPARATE WARRANTY IS GIVEN. PLEASE CONTACT CCI IMMEDIATELY IF YOU REQUIRE A COPY OF CARTRIDGE LIMITED WARRANTY.

The Canon Product when delivered to you in a new condition in the original container, is warranted against defective materials or workmanship as follows: for a period of one (1) year from the date of original purchase, defective parts or a defective product returned to a Canon repair facility or a CCI Authorized Service Facility (ASF) for such product, as applicable and proven to be defective upon inspection, will be exchanged for new parts or comparable rebuilt parts or a refurbished product as determined by CCI or the ASF. Warranty repair or replacement shall not extend the original warranty period of the defective product. This limited warranty does not cover any accessories as to which there shall be no warranty or replacement.

This limited warranty shall only apply if this Product is used in conjunction with compatible computers, peripheral equipment and software, as to which CCI will have no responsibility for such items except for compatible Canon brand peripheral equipment covered by a separate warranty. NON-CANON BRAND EQUIPMENT AND SOFTWARE WHICH MAY BE DISTRIBUTED WITH THE PRODUCT ARE SOLD "AS IS" WITHOUT WARRANTY, REPRESENTATION OR CONDITION OF ANY KIND BY CCI, INCLUDING ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND ALL SUCH WARRANTIES ARE DISCLAIMED. The sole warranty, if any, with respect to such non-Canon brand items is given by the manufacturer or producer thereof.

This limited warranty shall be void and of no force and effect if the Product is damaged as a result of

(a) Loss, abuse, neglect, mishandling, alteration, improper packaging by you, electric current fluctuations or accident such loss of or damage to the product includes, without limitation, water damage, damage from dropping the product, scratches, abrasions, cracked or chipped casing/glass to product, to the connectors,
(b) improper use, including failure to follow operating instructions or maintenance and environmental conditions prescribed in CCI's operator's manual or other documentation,
(c) installation, service or repair by other than authorized service representatives qualified by CCI who are acting in accordance with CCI's service bulletins,
(d) use of supplies or parts (other than those distributed by CCI) which damage the Product or cause abnormally frequent service calls or service problems or
(e) use of the Product with non-compatible computers, peripheral equipment or software, including the use of the Product in any system configuration not recommended in any manual distributed with the Product or
(f) models of products which are not distributed by CCI respectively
(g) nor does this warranty extend to any Product on which the original identification marks or serial numbers have been defaced, removed, or altered.

THIS LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND CONDITIONS, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE RELATING TO THE USE OR PERFORMANCE OF THE PRODUCT. NO OTHER WARRANTY, CONDITION OR REPRESENTATION EXCEPT AS MENTIONED ABOVE, GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THE PRODUCT SHALL BIND CCI OR ANY ASF. NO WARRANTY, REPRESENTATION OR CONDITION IS GIVEN ON ANY USED PRODUCT.

NEITHER CCI NOR ANY ASF SHALL BE LIABLE FOR PERSONAL INJURY OR PROPERTY DAMAGE (UNLESS CAUSED SOLELY AND DIRECTLY BY THE NEGLIGENCE OF CCI OR ANY ASF), LOSS OF REVENUE, PROFIT OR INCONVENIENCE, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, EXPENDITURES FOR SUBSTITUTE EQUIPMENT OR SERVICES, STORAGE CHARGES, LOSS OR CORRUPTION OF DATA OR FOR ANY OTHER SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THE PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF CCI OR ANY ASF HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST CCI OR ANY ASF BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, THE PURCHASER ASSUMES ALL RISKS AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PERSONS AND PROPERTY OF THE PURCHASER OR OTHERS ARISING OUT OF THE POSSESSION, USE, MISUSE, OR INABILITY TO USE THE PRODUCT NOT CAUSED SOLELY AND DIRECTLY BY THE NEGLIGENCE OF CCI OR ANY ASF. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE PURCHASER OF THE PRODUCT AND STATES YOUR EXCLUSIVE REMEDY.

In order to obtain warranty service, please call the Customer Information Centre at 1-800-OK-CANON (1-800-652-2666), between 9 a.m. and 8 p.m. EST Monday through Friday, except holidays. To obtain ADVANCED WARRANTY EXCHANGE a dated proof of purchase is required at the time of service. This requirement will be satisfied by providing a copy of your dated bill of sale or invoice. Additional customer support and/or troubleshooting may be available on our website: www.canon.ca

ADVANCED WARRANTY EXCHANGE

Advanced Warranty Exchange is a warranty program that expedites, usually within three (3) business days*, the exchange of a defective product with a refurbished product. The refurbished product you receive will be covered by the balance of the period remaining on your original limited warranty. **Note that by using this service you will keep the replacement product that is sent to you, and your originally purchased product shall become the property of CCI.** The Advanced Warranty Exchange program service is available only during the express limited warranty period for your product and only in Canada during such period.

If the Customer Information Centre representative cannot correct the problem with your product over the telephone and you elect the Advanced Warranty Exchange program service, the representative will issue you a reference number upon verification of warranty eligibility. You will be asked for information pertaining to your defective product and for a ship-to location for the replacement product (street address only). You must also provide a major credit card number that will be pre-authorized by CCI in an amount up to the cost of a new product at the time you elect the Advanced Warranty Exchange program service. **Your credit card number will be charged in an amount up to the cost of a new product** (i) if you do not return your defective product to a Canon repair facility by the date specified by CCI and in the manner described below (ii) if the defect(s) in the product were not covered by the limited warranty or (iii) if the warranty period on the product has expired or has not been sufficiently established by your supplying of the appropriate documentation. The Canon repair facility will ship out the replacement product by courier prepaid by Canon. After receipt of the replacement product (with instructions and a prepaid return waybill), follow the instructions to ship the defective product to a Canon repair facility. You must return the defective product in the shipping carton in which the replacement product was packed and you must include the reference number, **a copy of your dated proof of purchase** (bill of sale) and a complete explanation of the problem. **Do not include any other items in the return-shipping container.** It is your responsibility to properly package and send your defective product to the Canon repair facility.

COOLER FREEZE-UP PROTECTION

WARNING

On medium temperature brine units, the anti-freeze solution must be properly mixed to prevent freezing at a temperature of at least 15 F (8.3 C) below the leaving-fluid temperature set point. Failure to provide the proper antifreeze solution mixture is considered abuse and may impair or otherwise negatively impact the Carrier warranty.

The main base board (MBB) monitors leaving fluid temperature at all times. The MBB will [illegible] pumps as necessary to prevent freezing conditions due to the rapid loss of load or low cooler fluid flow.

When the cooler is exposed to lower ambient temperatures (34 F [1 C] or below), freeze-up protection is required using inhibited ethylene glycol.

HEATER CABLE — Optional factory-installed cooler and hydronic package heaters are cycled based on the outdoor-air temperature sensor. These heaters, when activated, are designed to protect the cooler and/or hydronic package from freezing down to –20 F (–29 C). Power for these heaters is supplied from the main unit power.

Protection from the low pressure transducer provides cooler and hydronic package protection. The MBB shuts down the [illegible] freezing.

CAUTION

Do not disconnect main unit power when [illegible] temperatures) at outdoor temperatures at or below 40 F (4.4 C). The unit comes with a single-circuit breaker or multiple circuit breakers that can be used to shut off power to the compressors. If power to the unit must be off for a prolonged time, drain the cooler and internal piping. Add glycol according to Winter Shutdown in Step [illegible].

WINTER SHUTDOWN — If the unit is not operated during the winter months, at the end of the cooling season:

1. Drain water from system.
2. Replace drained water with [illegible] glycol or other suitable inhibited antifreeze to protect pump and piping to prevent freezing of residual water.
3. At the beginning of the next cooling season, refill cooler and add recommended inhibitor.

Thermistors — Electronic control uses [illegible] thermistors to sense temperatures for controlling operation of the chiller. Thermistors EWT, LWT, RGTA, RGTB, and OAT are identical in their temperature and voltage drop performance. The SPT space temperature thermistor has a 10 kΩ input channel and has a different set of temperature vs. resistance and voltage drop performance. Resistance at various temperatures are listed in Tables 27-31. For dual chiller operation, a dual chiller sensor is required which is a 5 kΩ thermistor. When a digital compressor is used, a DTT (digital temperature thermistor) [illegible].

REPLACING THERMISTORS (EWT, LWT, RGTA, RGTB) — Add a small amount of thermal conductive grease to the thermistor well and end of probe. For all probes, tighten the retaining nut ¼ turn past finger tight. See Fig. 39 and 40 [illegible].

THERMISTOR/TEMPERATURE SENSOR CHECK — A high quality digital volt-ohmmeter is required to perform this check.

1. Connect the digital voltmeter across the appropriate thermistor terminals at the J8 terminal strip on the Main Base Board (see Fig. 36).
2. Using the voltage reading obtained, read the sensor temperature from Tables 27-31.
3. To check thermistor accuracy, measure temperature at probe location with an accurate thermocouple-type temperature measuring instrument. Insulate thermocouple to avoid ambient temperatures from influencing reading. Temperature measured by thermocouple and temperature determined from thermistor voltage reading should be close, ± 5° F (3° C) if care was taken in applying thermocouple and taking readings.

If a more accurate check is required, unit must be shut down and thermistor removed and checked at a known temperature (freezing point or boiling point of water) using either voltage drop measured across thermistor at the J8 terminal, or determining the resistance with chiller shut down and thermistor disconnected from J8. Compare the values determined with the value read by the control in the Temperatures mode using the scrolling marquee display.

Pressure Transducers — The suction and discharge transducers are different part numbers and can be distinguished by the color of the transducer body, suction (yellow) and discharge (red). No pressure transducer calibration is required. The transducers operate on a 5 vdc supply, which is generated by the MBB. See Fig. 36 for transducer connections to the J8 connector on the MBB.

TROUBLESHOOTING — If a transducer is suspected of being faulty, first check supply voltage to the transducer. Supply voltage should be 5 vdc ± 0.2 v. If supply voltage is correct, compare pressure reading displayed on the scrolling marquee display module against pressure shown on a calibrated pressure gauge. Pressure readings should be within ± [illegible] psig. If the two readings are not reasonably close, replace the pressure transducer.

Chilled Water Flow Switch — A factory-installed flow switch is installed in the leaving fluid piping for all units without the factory-installed hydronic package. See Fig. 41. Units with the optional hydronic package have the flow switch installed in the entering fluid piping. This is a thermal-dispersion flow switch with no field adjustments. The switch is set for approximately 0.5 ft/sec of flow. The sensor tip houses two thermistors and a heater element. One thermistor is located in the sensor tip, closest to the flowing fluid. This thermistor is used to detect changes in the flow velocity of the liquid. The second thermistor is bonded to the cylindrical wall and is not affected by changes in the temperature of the liquid. The thermistors are positioned to be in close contact with the wall of the sensor probe and, at the same time, to be kept separated from each other within the confines of the probe.

In order to sense flow, it is necessary to heat one of the thermistors in the probe. When power is applied, the tip of the probe is heated. As the fluid starts to flow, heat will be carried away from the sensor tip. Cooling of the first thermistor is a function of how fast heat is conducted away by the flowing liquid.

The difference in temperature between the two thermistors provides a measurement of fluid velocity past the sensor probe. When fluid velocity is high, more heat will be carried away from the heated thermistor and the temperature differential will be small. As fluid velocity decreases, less heat will be taken from the heated thermistor and the temperature differential will increase.

When unit flow rate is above the minimum flow rate, then the output is switched on, sending 24 vac to the MBB to prove flow has been established.

Building A Solid Business Through Referrals

You must understand that referrals are the lifeblood of professional selling

KEY SUCESS PRINCIPLE:
No matter how artful or talented you are, you must follow a specific methodology to be successful in expecting and getting quality referrals

7 POWERFUL BENEFITS OF GETTING REFERRALS

There are 7 powerful benefits of having your clients referring business to you. Referred clients are

1) *easier to close*
2) *more trusting*
3) *less price sensitive*
4) *far less likely to complain*
5) *more loyal*
6) *more likely to remain clients longer than non-referred clients*
7) *already in the mindset to refer more business to you, since they were already referred to you*

Cold Calling is God's punishment for not getting referrals!

Keep in mind that ignorance of following avoidance acts may lead to fire or electrical shock.

- Placing product close to the flammable solvents such as alcohol or thinner
- Use of power cord and/or cable other than the one supplied
- Plugging in the power cord to voltages other than specified
- Plugging the power cord incompletely such as half the way
- Plugging in and unplugging the power cord with wet hands
- Use of damaged cords caused by pulling, twisting, tying or excessively bending
- Placing heavy objects on the cord.
- Using tandems or knotted power cord
- Connecting excessive numbers of plugs into one electrical outlet. Using multiple extension cords
- Leaving power cord plugged in while lightning
- Plugging in the cables and power cord during cleaning. Using flammable spray or liquids such as alcohol or thinners for cleaning. Wipe it with a soft dry cloth instead
- Taking apart or modifying the product and accessories.
- Unplug the power cord once a month to see if power cord/plug shows anything unusual such as heat, rust, bent, scratch, split and so on. Unplug the cord/plug and call for service if above is observed since they may lead to a fire or an electric shock afterwards

If you hear unusual noises, see smoke, feel excessive heat, smell anything unusual, drop metallic part or spill liquid into the product, immediately unplug the power cord and call for service. Continued use of the product may result in fire or electrical shock.

Drinking Water and Your Health

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers.

Cryptosporidium is a microbial pathogen that may be found in surface water such as rivers, lakes and streams throughout the U.S. Ingestion of Cryptosporidium may cause cryptosporidiosis, an abdominal infection. Symptoms of the infection include nausea, diarrhea, and abdominal cramps. Cryptosporidium must be ingested to cause disease, and it may be spread through means other than drinking water. Most healthy individuals can overcome the disease within a few weeks. However, immuno-compromised people, infants and small children, and the elderly are at greater risk for developing life-threatening illness.

Guidelines from the U.S. EPA and Centers for Disease Control and Prevention on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline at 1-800-426-4791.

2014 was the first full year for Fort Wayne City Utilities' new [illegible] ultraviolet light to disinfect the water specifically to eliminate Cryptosporidium and other similar pathogens. To ensure the safety [illegible] Cryptosporidium [illegible] the water from the St. Joseph River and finished drinking water for [illegible] Cryptosporidium [illegible] 2014 [illegible] 40 [illegible] liters of water. No Cryptosporidium was found in the [illegible] and City Utilities continues to be in compliance with federal standards.

Keeping Your Drinking Water Safe

To ensure that tap water is safe to drink, the United States Environmental Protection Agency (USEPA) prescribes regulations that limit the amount of certain contaminants in water provided by public water systems such as Fort Wayne's. Food and Drug Administration regulations establish limits for contaminants in bottled water which must provide the same protection for public health. The USEPA also requires that public water systems make an annual report such as this one available to their customers. Bottled water producers don't face the same requirement.

The sources of drinking water (both tap and bottled) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In some [illegible] Home Rotary Water Filtration [illegible] chemicals, [illegible] remove [illegible] these [illegible] making [illegible] regulatory standards.

A Source Water Assessment has been completed for the public water supply for [illegible] by The Source Water Assessment [illegible] identifies potential point and non-point sources of contamination [illegible] that may affect the susceptibility of our water supply to potential contamination. More information regarding the Source Water Assessment can be obtained by contacting [illegible] at (260) 427-1154.

How to Read the Water Quality Table

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow.

Detected Level: The highest level of a contaminant detected. For certain contaminants [illegible]. The detected level could be the highest single measurement or it may be an average, depending on the peak level of a contaminant.

Range: The lowest to highest values for all samples tested for each contaminant. If only one sample is tested, no range is listed.

HA: Health Advisory level

NA: Not applicable.

MNR: Monitoring not required but recommended.

ppm: Parts per million or milligrams per liter (mg/L).

ppb: Parts per billion or micrograms per liter (µg/L).

NTU: Nephelometric Turbidity Units. A measure of water's cloudiness and an indicator of filtration effectiveness in the water filtration process.

%: Percent of monthly samples that were positive

Oocyst: A [illegible] capsule [illegible] that it can live [illegible] thick wall.

Final Bill

Please note that you no longer have insurance with us, effective May 10, 2012

We canceled your policy at your request, but there is still a balance due on your canceled policy term. Please see your payment summary below for more information. If you already sent your payment, thank you, but please know that your payment will not reinstate your policy. Failure to pay the amount owed by the due date may result in your referral to a collections agency.

If you've scheduled a payment, we've canceled it, please pay the amount due (if any).

It's important that you get insurance as soon as possible. If you have questions about your cancellation, or would like to learn how to keep this policy or purchase a new one, please call your Agent.

Congratulations, you have successfully installed your new Epson printer!

Here are some tips for getting great prints:

- Genuine Epson inks have been engineered to deliver stable, long-lasting photographic quality when used with Epson papers.
- To protect your photos, frame them under glass or store them in archival sleeves or albums. Your prints will last for generations!
- Epson offers an extensive line of specialty papers that provide outstanding results when used with Epson printers and genuine Epson ink.
- For best results, make sure the paper type selected in your printer software is right for the type of paper loaded in the printer. See your documentation for more information.
